INDEPENDENT COMMUNICATIONS AUTHORITY OF SOUTH AFRICA

ADDENDUM A TO:
LICENCE FOR TELECOMMUNICATION LINE TERMINAL EQUIPMENT (SUPPLEMENTARY CONDITIONS)

LICENCE NUMBER: TE-2013/071

This licence is issued subject to the conditions, procedures and instructions as detailed hereunder and must be adhered to:

1. STANDARD CONDITIONS

1.1 The licensee will be obliged to effect, at his own expense, any modifications that may be required in order for the licensed equipment to comply with the latest technical specifications issued by the Independent Communications Authority of South Africa (ICASA).

1.2 All marketed equipment of the same make and model, shall have the same technical and operational characteristics as the evaluated sample(s), including any modification(s) that may have been prescribed by ICASA.

1.3 The licensee shall not modify the licensed equipment or add any facility to it that will cause it to deviate in any way from the conditions of the licence, nor shall he allow any other person to do so, without the written consent of ICASA.

1.4 Should it be found at any time, that a licensee fails to comply with the conditions of this licence, or for any other valid reason, ICASA may revoke this licence, with due prior warning.

1.5 Should the licence be revoked in terms of clause 1.4, it must be returned to ICASA within 14 days.

1.6 This licence is not transferable and the licensee shall not transfer his licence to any other person or entity, nor surrender it in any other way in favour of another, except with the written approval of ICASA.

1.7 Only South African registered business entities will be the primary holders of the telecommunication equipment type approval licence. In the event where anything unforeseen should emerge with respect to the type approved equipment the licence holder will be the first port of call.

1.8 This licence does not grant exclusive rights to the supplier. ICASA reserves the right to issue a licence to any other person to connect similar equipment to the network.

LICENCE NUMBER: TE-2013/071

1.9 The licensee or his agent(s) shall not verbally or otherwise intimate to any person that ICASA sponsors or recommends in any way, the use of a particular equipment. However, the licensee may inform potential customers by means of advertising, that he is in possession of a valid licence issued by ICASA for a particular equipment. The licensee shall have the original or a certified copy of the licence, available at every point of sale and shall produce such licence on request.

1.10 It is the licensee's responsibility to install the equipment in accordance with the conditions of service laid down the (PSTN) operators and to provide the necessary maintenance support to his clients.

1.11 ICASA accepts no liability whatsoever, for the satisfactory performance of the equipment.

1.12 Should it be found that faulty equipment adversely affects the public network, ICASA may take such steps as is deemed necessary to protect the integrity of the network.

1.13 These conditions shall remain in force until they are withdrawn at the supplier's request or revoked by ICASA in terms of clause 1.4
