Power-supply Units

See General Information for Signal and Fire Alarm Equipment and Services

USE

This category covers power supply units intended for application as components of fire-protective signaling systems.

PRODUCT MARKINGS

Each product is marked to indicate its intended use. This consists of a specific use description as indicated in the individual Listings.

ADDITIONAL INFORMATION

For additional information, see Signal and Fire Alarm Equipment and Services (SYKJ) and Fire Protection Equipment (AAFP).

REQUIREMENTS

The basic standard used to investigate products in this category is UL 1481, "Power Supplies for Fire-Protective Signaling Systems."

UL MARK

The Signaling Listing Mark of Underwriters Laboratories Inc. on the product or on the smallest unit container in which the product is packaged is the only method provided by UL to identify products manufactured under its Listing and Follow-Up Service. The Signaling Listing Mark for these products includes the UL symbol with the word "SIGNALING" above the UL symbol and the word "LISTED" below the UL symbol (as illustrated in the Introduction of this Directory), a control number, and the product name "Fire Alarm Equipment" or "Fire Alarm Subassembly."

The Listing Mark for fire alarm equipment may include the designation "___ of ___." The first space is stamped with the number indicating the position that the panel occupies in the series of panels constituting the fire alarm equipment. The second space is stamped with the total number of units in the fire alarm equipment.

When applicable, the Security Mark is also included. The combined Signaling/Security Listing Mark consists of the Signaling Mark elements detailed above and the word "SECURITY" above the UL symbol. The product name is "Fire Alarm and Security Equipment" or "Fire Alarm and Security Subassembly."

Some of these products are also Listed under other Signaling and Energy Management, Information Technology or Telephone categories. When applicable, the product name may include "and Hospital Signaling and Nurse Call," "and General Signaling," "and Emergency Signaling," "and Enclosed Energy Management," "and Information Technology" or "and Telephone," as appropriate (e.g., "Fire Alarm and Telephone Equipment").

The product name may be abbreviated as follows: The word "Type:" followed by the appropriate Type Code (as shown below), additionally followed by "Subassembly," as applicable.

Type Codes:

> **S** - Security Equipment
>
> **F** - Fire Alarm Equipment
>
> **HN** - Hospital Signaling and Nurse Call Equipment
>
> **G** - General Signaling Equipment
>
> **E** - Emergency Signaling Equipment
>
> **EM** - Enclosed Energy Management Equipment
>
> **IT** - Information Technology Equipment
>
> **T** - Telephone Equipment
