Power listed is conducted. The antenna installation and operating configurations of this transmitter, including antenna gain and cable loss, must satisfy the MPE Categorical Exclusion Requirements of Section 2.1091. The antenna(s) used with this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operate in conjunction with any other antenna or transmitter. Users and installers must be provided with antenna installation instructions and transmitter operating conditions for satisfying RF exposure compliance.
