AWARD-WINNING*
INTERNET & NETWORK ALARM COMMUNICATORS

**Faster, more reliable, plus big savings.
Advanced technology for banks,
governments, retailers & schools**

INTERNET

INTERNET:

▶ Supervised monitoring at 90 second
intervals (optional)

▶ Extremely fast programming

▶ Changes to panel or TL250 can be made remotely
with DLS2002SA software

▶ More security system value for clients

▶ UL AA High-Line Security listed for
commercial burglary and fire (ULC Level 5 listed)

▶ Uses existing client Internet or network
connection saving $ hundreds or thousands
each year

▶ Increase recurring monthly revenue

▶ Solution for Internet-only or network-only locations

NETWORKS:

**Commercial clients use existing network
and DLS2002SA software to manage system, add
users, delete users & download events.**

▶ Highly secure 128-bit AES encryption (NIST approved)

▶ Supports DHCP (dynamic IP addresses)

▶ Faster because it's Internet/network based

▶ Works beautifully with the Sur-Gard™ System III from DSC

*Dealer's Choice Award, new Internet security product 2004.

Progressive technology. Powerful security. It's a new era!
