TL255 Internet Alarm Communicator

DSC is pleased to announce the release of the TL255 Internet Alarm Communicator for IMPASSA.

The easy-to-install communicator can be added to any G-ready IMPASSA and is discreetly mounted inside the main panel enclosure.

The TL255 saves the end-users money by taking advantage of their existing networks to provide secure Internet communications over a private network (LAN/WAN) or the Internet, between the control panel and central station receivers.

Features:

- Compatible with IMPASSA Control Panel
- Panel remote uploading & downloading via Internet using DLS 5
- Programmable Using DLS5 or Keypad
- Supervision heartbeat via Internet
- 128 Bit AES Encryption
- Full Event Format
- SIA and Contact ID Format
