LTE Universal Wireless Alarm Communicator

We are pleased to announce that we have released the LE4000 and LE4010 alarm communicator in TELUS version. Experience high-speed, reliable, and low-cost communications with the added convenience of TELUS SIM compatibility.

Main Features

- Uses LTE cellular network for high-speed, reliable, and low-cost communications to Sur-Gard System I-IP/II/III/IV/5 receiver.
- Compatible with control panels that communicate using the Contact ID and SIA (300 baud) formats.
- Full event reporting
- 2 on-board inputs
- 2 on-board outputs
- Activation and initialization via website or mobile interface provided by C24 Communications

- View communicator status directly from your mobile phone to support on-site or remote troubleshooting.
- SMS command & control for panel arm/disarm.
- PTM call routing to direct cellular signals to multiple receivers based on dialed number.
- Advanced carrier selection to secure a suitable cellular connection.
- Two unique trouble display models
- Compatible with Sur-Gard System I-IP/II/III/IV/5 monitoring station receivers.
