

New Product Available

PowerSeries Pro Version 1.4

Date: October 20, 2022
Region: Global
Product: PowerSeries NEO
Brand: DSC

PowerSeries Pro

Overview

We are pleased to announce the availability of the new Software version 1.4 for PowerSeries Pro.

PowerSeries Pro features PowerG wireless encryption technology and is built with superior onboard power. It is ideal for large-scale intrusion projects in factories, warehouses, office buildings, retail, and energy sector facilities –to meet the demands of your growing business.

Top 10 reasons to switch to the PowerSeries Pro:

- 1. 248 zones & 32 partitions:** Be empowered to take on larger projects.
- 2. 2A on-board power:** Plenty of power for larger projects. Scalable & ready for growth.
- 3. Long-range PowerG wireless:** Up to 1.2 miles or 4X of traditional wireless. No repeater needed.
- 4. 128-bit AES encryption for wired & wireless:** Best-in-class encryption technology.
- 5. Anti-masking hardwired & wireless:** Enhanced security in case of tempering.
- 6. Local installer app:** No internet connection is required for installation.
- 7. Removable terminal strips:** Easy to handle, speeds up installation.
- 8. Real-time diagnostics:** Snapshot of diagnostics of all bus modules and onboard connections remotely displayed on DLS5 and also on a keypad.
- 9. Routine system management:** Full RSM report generation after a remote inspection. Fewer truck rolls. Less time on-site.
- 10. Programmable zone resistance:** Simplify takeovers by automatically detecting end-of-line resistance.

New Features, Benefits & Value

Feature	Benefit	Value
