PowerSeries Pro
Commercial Security System

Introducing PowerSeries Pro, the commercial-grade security system that reaches as far as your business. Families and small businesses have long turned to PowerSeries to protect their properties; and now large businesses can too!

With cyber protection features and long-range wireless communication capabilities, PowerSeries Pro is the only intrusion security panel that can handle large installations – such as warehouses, office buildings, factories, and healthcare facilities – while eliminating the need for wires on sensors or keypads.

Versatile by design, PowerSeries Pro supports many third-party integrations and an ever-expanding list of compatible security products.

PowerG – The Power of Wires, Without the Wires

Cut out the wires and plug in peace of mind with PowerG, the leading wireless security technology for today's businesses. PowerG offers all the benefits of traditional wired security, without the hassles and vulnerabilities of wires. It makes end users' lives more secure and convenient, and is ideal for a wide range of applications.

Full Premises Intrusion Detection

Ensure comprehensive intrusion detection for businesses of all sizes.
- Secures large commercial installations without the need for wires on sensors or keypads
- Provides outstanding performance using built-in PowerG leading-edge wireless intrusion technology
- Prevents tampering with enhanced anti-masking technology
- Ideal for mid-to-large-sized commercial installations
- Certified by the most stringent international standards

Cyber Protection

Cyber protection features for more complete protection.
- Robust PowerG technology provides long-range wireless encrypted communications
- Built-in 128-bit AES encryption technology

Easy Installation

Breeze through installations and give customers the security that's right for their business.
- Straightforward installations without the need to run long wires
- Easily integrates with Alarm.com and other third-party integrations, including Building Management Software (BMS) and video access solutions
- Simple to install, with different interfaces for hardwired keypads (touchscreen vs. LCD)
- Intuitive installer app further simplifies the process

Extensive Value

Grow with customers as their needs expand.
- On-board Ethernet and modular communicators ensure long-lasting value
- Ever-expanding list of compatible security products
- Products can be easily added to support each customer's changing needs
