Powerseries Pro

The only grade 3 intrusion security system

that addresses all commercial applications with one solution

Tyco's security solution for small businesses to large scale commercial properties
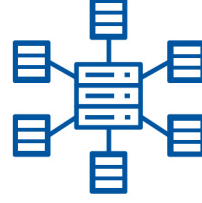

Presenting
an all-new

commercial
alarm system

Easy Installation

The Wi-Fi based installer app makes installations, commissioning, and remote programming quick, intuitive, and hassle-free.

Growth Opportunities

Highly scalable, PowerSeries Pro is designed to accommodate additional buildings and areas, with an ever-expanding list of compatible security products, as customers' needs evolve.

Integration Capabilities

User-friendly and versatile, PowerSeries Pro supports multiple third-party integrations, including Alarm.com, Building Management Software (BMS), and video access solutions.

Flexibility

PowerSeries Pro can be integrated as a fully wired system or as a hybrid system with Tyco's PowerG wireless technology devices.
