**DLS IV v1.6 software release – Networkable Support and  
PTK5507 TouchScreen Module Support**

DSC is pleased to announce the release of DLS IV v1.6 with networkable support and PTK5507 Touchscreen Support.

Networkable support will allow you to have multiple computers sharing the same database of user accounts. Please refer to TAB # 12-005.

**New Features:**

- Maximum of eight users can be connected to the server at the same time
- Maximum of eight modems can be added to the server
- Ability to have client and standalone installed on same machine.

The TouchScreen keypad delivers an easy interactive way to manage and control security systems – at the touch of a finger. It has an intuitive interface and seamlessly integrates with PowerSeries security systems.

**Key Features:**

- 7" Full Color Display
- SD card for Picture Frame feature
- Menu Driven User programming
- Installer programming
- Customizable home page
- Customizable background
