PowerSeries Neo V1.3

Introduction

PowerSeries Neo V1.3 is a modular, hybrid security system that combines the simplicity of wireless devices and peripherals with traditional hardwired sensors and expansion modules. This hybrid system is suitable for residential and scalable commercial installations.

This new version also offers increased Proximity Tag Arming flexibility, and includes a fix for an issue where CP-01 panel variants Auto-Armed in Stay Mode rather than Away Mode.

Market Segments

- Residential and commercial
- Available Worldwide

Main Features

Main Feature	Customer Benefit	Value
Increased Proximity Tag Arming Flexibility	Proximity tag can always arm in Away Mode, or detect appropriate arming mode	The user can customize the system to their arming preference

New Release Note

Issues Resolved from Last Version

Issue	Fix
CP-01 Variant Auto-Arm in Stay Mode	CP-01 Variant now Auto Arms correctly in Away Mode
Bell circuit damage caused by reverse polarity applied at Bell+ and Bell-	Bell circuit now accommodates reversing relay modules
CO Alarm followed Bell Timeout	CO Alarm now follows the Temporal CO pattern until Bell Timeout is reached, and then switches to 60s interval (Extended CO Cadence) until the alarm is acknowledged

Compatibility

PowerSeries Neo control panels	All existing versions can be upgraded to V1.3
HS2 keypads	V1.3 and older
Integrated communicators	V5.02 and older
Alarm.com communicators	V185c and older
WebSA	Driver Pack available now
DLS5	Driver Pack available now

Availability

- DSC Brand
- UL
- PowerSeries Neo supports 28 languages
- Version 1.3 is available via firmware updating using DLS 5. When updating from V1.14+ only the NEO_Panels_HS2XXX_V130_Firmware upgrade file is required. If updating from V1.13 or older, apply the NEO_Panels_HS2XXX_V130_Bridge file, followed by the NEO_Panels_HS2XXX_V130_Firmware file.
- The upgrade can be performed locally via powered PC-Link cable, or remotely via DLS 5 connection. Instructions for upgrade can be found at http://dlshelp.dsc.com/index.php?title=Neo_Remote_Firmware_Upgrade.
- V1.3 will be included on panels being manufactured starting November 18, 2016

Pricing & Ordering Information

Part numbers and pricing remain unchanged from V1.2.
