New Product Announcement

Product: WS900x

iotega

Date: Nov 8, 2017

Region: US

Product: WS900x iotega

Brand: DSC

Profile

We are excited to introduce our next generation wireless security and automation platform - **iotega!** **iotega** is the most advanced security and home automation platform on the market today. You can now offer a simple to install solution that includes encrypted security sensors, Z-Wave for home and business automation, built in Ethernet and Wi-Fi for easy installation, and it can connect up to 8 cameras for local and remote viewing. We think you will agree that there isn't anything like this available on the market today.

You can provide your customers with the security they already know and trust, along with the freedom to choose from a variety of home automation devices powered by SecureNet. **iotega** is based on built-in PowerG wireless technology and is a fully encrypted security system which will help generate revenue by

Safer, Smarter Living

- Secure
- Simple
- Scalable

Intrusion Sensors		Safety Sensors		Keypads, Arming Devices & Panic Buttons	
PG9934/PG9934P PIR Motion Detector with Camera		PG9926 Smoke Detector		PG9938 1-Button Security Panic Keyfob	
PG9914 PIR Motion Detector		PG9916 Smoke and Heat Detector		PG9949 2-Button Security Panic Keyfob	
PG9924 Curtain PIR Motion Detector		PG9913 Carbon Monoxide Detector		PG9929/PG9939 4-Button Security Panic Keyfob	
PG9975 Vanishing Door/Window Contact		PG9905 Temperature Detector		WS9LCDW9X Arming Station (wire-free)	
PG9945 Door/Window Contact with Auxiliary Input		PG9985 Flood Detector			
PG9974/PG9974P Mirror Optic PIR Motion Detector		**Sirens & Repeaters**			
PG9984/PG9984P Dual Technology (PIR & MW)		PG9901 Indoor Siren			
PG9994 Outdoor PIR Motion Detector		PG9911 Outdoor Siren			
PG9935 Shock Detector		PG9920 Repeater			
PG9912/PG9922 Glass Break Detector					

The iotega is compatible with selected Z-Wave home automation devices powered by SecureNet. Contact your DSC sales representative for a complete list.

Availability

- Available in English, French, Spanish
- FCC/IC, UL/ULC approved

Known Limitation

Due to a problem with PGX914P PIRs as highlighted in the PG9914 Technical Advisory Bulletin, iotega V1.0 will be limited to support 40 Zones total with up to 17 PG9914P PIR's. This limitation is temporary and new software that can be pushed remotely will be available shortly after launch to support the full 128 zones, without any limitation on the PG9914P PIRs. If you have an installation over 40 wireless zones including 17 or more PG9914 motion detectors, advise your DSC representative as soon as possible and contact productannouncements@tycoint.com.
