

## New Product Announcement

**Date:** May 3, 2018

**Region:** US

**Product:** iotega Touchscreen (WS9TCHWNA)

**Brand:** DSC

## Profile

Following the introduction of the next generation wireless security and automation platform iotega, comes the fully compatible 7" Wi-Fi iotega Touchscreen!

Designed for residential and small business properties, the iotega Touchscreen is part of the iotega line of safety, security and lifestyles solutions. The iotega Touchscreen is an easy-to-install Wi-Fi enabled solution that gives customers the freedom to manage and monitor their smart security and home automation platform from a full 7" touchscreen display. With state of the art encryption, the iotega Touchscreen securely connects to the iotega panel wirelessly, enabling installers to wall mount the touchscreen virtually anywhere or, using an optional table stand, locate it on a bedside table, book shelf or an office desk. Up to four Touchscreens can be used with the iotega platform. The 7-inch touchscreen features a high resolution 1024 x 600 capacitive display, offering one of the clearest screens available on the market.

In the ever-changing electronic landscape, keeping up with the most current technology available is always a struggle. The iotega Touchscreen is capable of receiving remote software updates, saving installers from labor-intensive customer visits where new features and updates can continue to enhance the end-user experience.

The iotega Touchscreen offers everything the end-user will need to feel safe and in control of their smart home.

iotega. Security never looked so smart.

## Features, Benefits & Value

Feature	Benefit	Value
Wi-Fi Connectivity	Greater ease of placement	Scalable solution. Add up to 4 Touchscreens to the iotega platform
7-inch, 1024 x 600 capacitive display	One of the clearest screens available on the market	Full security and home automation control
Remote software updates	Reduces labor-intensive customer visits	A virtually future proof system where new features and periodic updates can continue to enhance the end user experience.

## Use Case

Users can securely control their encrypted security system, automation system, lights and locks, and also view video cameras with a simple touch of a finger on the 7" iotega Touchscreen display.

## Compatibility & Ancillaries
