New Product Announcement

WORKS WITH
ALARM.COM®

Date: July 27th, 2018

Region: US

Product: iotega (WS900xA)

Brand: DSC

Safer, Smarter Living

Profile

We are excited to announce that the award winning iotega now leverages the interactive and home automation features from Alarm.com! iotega is the leading versatile wireless security and automation solution available on the market today.

iotega's cyber protection features with PowerG 2-way wireless encrypted sensors, combined with Alarm.com, enables users to seamlessly arm and disarm their system in addition to controlling other home automation functions such as lighting, thermostats, door locks, voice controlled devices, doorbell cameras and more! With support for Z-Wave Plus features in addition to Wi-Fi for cameras and touchscreens, iotega offers consumers freedom of choice with a myriad of home control devices.

The set-up is quick, installed and running within a matter of minutes. Service Providers can leverage the Alarm.com platform to quickly configure and support systems with remote diagnostics and troubleshooting capabilities. iotega is an intuitive, completely wireless and fully secure system, using encrypted, long-range wireless PowerG sensors, which provides homeowners and small businesses the ultimate in reliable security and home control.

Features, Benefits & Value

Feature	Benefit	Value
Secure	PowerG technology – Fully encrypted wireless security system – end to end 128-Bit AES encryption.	Reliability and cyber protection features.
Simple	Easy installation and supports all home & business needs, from simple activation to mobile access & control.	Intelligently activate home & business based on events, scheduled or other triggers. Save money with quick installations.
Scalable	Start from security only or a security & smart solution. Your preferred offering of security and home automation devices.	Easily scales to accommodate the full range of home & business lifestyle demands.
