

Product Change Bulletin

PowerSeries Neo Firmware V1.37 Release

Date: March 24, 2021

Region: Global

Product: PowerSeries Neo

Brand: DSC

Overview

Firmware V1.37 for the PowerSeries Neo is now available and includes the following improvements:

Feature	Description
EN50131-6 Compliant	Low battery trouble of the panel caused by the AC failure is now restored within five minutes after AC restores. The same changes were applied to HSM2204 and HSM2300 modules.
Wire-Free Keypad Status Updates	Improvement in the speed of updating the status of the wire-free keypads.
PowerG devices Status Updates	Improvement in the consistency in reporting the status of external input of the PowerG devices.
Duress Alarm Fix	Bugfix related to Duress Alarm not present in event buffer when Duress code is used to enter [*][6].

The firmware upgrade file can be downloaded via DSL5.
