

## FCC COMPLIANCE STATEMENT

**CAUTION:** Changes or modifications not expressly approved by Digital Security Controls Ltd. could void your authority to use this equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Re-orient the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/television technician for help.

The user may find the following booklet prepared by the FCC useful: "How to Identify and Resolve Radio/Television Interference Problems". This booklet is available from the U.S. Government Printing Office, Washington D.C. 20402, Stock # 004-000-00345-4.

## Warranty

Digital Security Controls Ltd. warrants that for a period of 12 months from the date of purchase, the product shall be free of defects in materials and workmanship under normal use and that in fulfillment of any breach of such warranty, Digital Security Controls Ltd. shall, at its option, repair or replace the defective equipment upon return of the equipment to its repair depot. This warranty applies only to defects in parts and workmanship and not to damage incurred in shipping or handling, or damage due to causes beyond the control of Digital Security Controls Ltd. such as lightning, excessive voltage, mechanical shock, water damage, or damage arising out of abuse, alteration or improper application of the equipment.

The foregoing warranty shall apply only to the original buyer, and is and shall be in lieu of any and all other warranties, whether expressed or implied and of all other obligations or liabilities on the part of Digital Security Controls Ltd. Digital Security Controls Ltd. neither assumes, nor authorizes any other person purporting to act on its behalf to modify or to change this warranty, nor to assume for it any other warranty or liability concerning this product.

In no event shall Digital Security Controls Ltd. be liable for any direct, indirect or consequential damages, loss of anticipated profits, loss of time or any other losses incurred by the buyer in connection with the purchase, installation or operation or failure of this product.

**WARNING:** Digital Security Controls Ltd. recommends that the entire system be completely tested on a regular basis. However, despite frequent testing, and due to, but not limited to, criminal tampering or electrical disruption, it is possible for this product to fail to perform as expected

**IMPORTANT INFORMATION:** Changes or modifications not expressly approved by Digital Security Controls Ltd. could void the user's authority to operate this equipment.

# HS-MP500 Universal Large Plate

## Installation Instructions

### Introduction

The HS-MP500 Universal Large Plate is intended to provide additional mounting options for the HS-CAB1000, HS-CAB3000 and HS-CAB4000 series of cabinets used in the Concourse Home System. The HS-MP500 can be mounted horizontally or vertically for custom installations. Mounting holes are provided for Concourse modules, PowerSeries 832 control panel. The Plate comes with 'Hook and Loop Strapping' for mounting of non standard communication devices.

Figure 1, HS-MP500 Universal Large Plate

### Contents of Package

Before installing this module, verify that the package contains the following:

- Qty (1)....HS-MP500 Universal Large Plate.
- Qty (1)....Hook and Loop hardware pack
- Qty (1)....Installation Instructions

## Installation

1. Remove and retain the two screws securing the raceway to the cabinet.

**NOTE:** The two screws securing the raceway to the cabinet are held in place with captive nuts. The cabinet does not have to be removed from its mounting location to install the the Universal Large Plate.

2. Orient Large Plate horizontally or vertically as required.
3. Place Large Plate in cabinet with mounting holes positioned where the raceway was mounted.
4. Secure Large Plate to cabinet using the retained screws.
5. Install Modules as described in the associated installation manual.

### And/or

6. Loop the "Hook and Loop" strapping through the slots provided (See figure 2) and secure devices to cabinet as required.
