Wireless Vanishing 
Door/Window Contact

WS4975W

Installs in Seconds 
& Virtually Vanishes

By far the smallest wireless door/window contact currently available in the world, the wafer-thin profile of the WS4975W provides a streamlined, practically non-existent look once installed. The contact can be easily mounted to a window frame with double-sided tape, eliminating the need for drilling. This not only reduces installation times but also retains the integrity of window warranties. A generous magnet gap of 16 mm (5/8") easily accommodates larger door or window frames. The WS4975W is built with reliable 433 MHz technology and is compatible with all current DSC wireless receivers.

Product Features:

- Wafer-thin profile
- Easy and reliable installation
- Long-life lithium battery included
- 16 mm (5/8") maximum magnet gap
- Reliable 433 MHz technology
- Double-sided tape (included)
- Case tamper
- RoHS compliant
- Temperature rated at -10° C to 50° C
- CE approved
Value Added

Significantly smaller than competitor door/window contacts, the WS4975W is housed within a compact casing that allows it to be used for the tightest-fitting installations. Once installed, the contact is inconspicuous and complements the décor of most homes. It is built with reliable 433 MHz technology, uses a long-life lithium battery and is compatible with all current DSC wireless receivers.

Compatibility

The WS4975W is compatible with the following receivers:

- PowerSeries™ Wireless Receivers
  - RF5132-433W/PC5132-433W all versions
  - RF5108-433W

- PowerSeries RFK Keypads
  - (RFK5500/RFK5501/RFK5516/RFK5508)

- Fixed-Message LCD Keypad with Integrated Wireless Receiver RF5501-433W

Specifications

- Dimensions: 57 mm x 25.4 mm x 4.8 mm (2 1/4” x 1” x 3/16”)
- Battery: CR2032 (3 V Lithium)
- Battery Life: 5 Years (Typical)
- Operating Temperature: -10 to 50°C (14-122 °F)
- Operating Humidity: 5-93% RH
