With the wireless WS8938W single-button personal panic, users are given a portable means to call for help from anywhere inside the home. The wireless key features intuitive activation via a large, clearly defined button that incorporates a full two-second delay to help reduce false alarms. To ensure easy emergency access, the WS8938W includes a neck strap and a multifunction clip that can be mounted in a convenient location or worn on a belt.

**Product Features:**
- Activation via 1 large, easy-to-use button
- Attractive, compact design
- Full 2-second delay on panic button to reduce false alarms
- Integrated LED to indicate signal transmission
- Neck strap and multifunction belt clip included
- Reliable 868 MHz technology
- Water resistant
- Supervised
- RoHS compliant
- CE listed
Easy To Use

The WS8938W provides users with an uncomplicated, portable means to call for help from anywhere in the home. The unit’s large panic button is clearly defined to ensure trouble-free activation in times of emergency.

False Alarm Reduction

The button on the WS8938W incorporates a full two-second activation delay to help reduce false alarms and to ensure transmissions are sent to the security system only when intended.

Visual Confirmation

A red LED indicator on the WS8938W flashes to indicate that a transmission has been sent to the security system.

Value Added

The WS8938W is water resistant and includes a neck strap. Also included is a multifunction clip that allows the personal panic to be permanently mounted to a convenient location or clipped to a belt. The key uses long-life lithium batteries that are installer-activated via a switch located inside the unit, a feature that helps maximize battery life. The WS8938W is compatible with the RF5132-868W wireless receiver and uses reliable 868 MHz wireless technology.

Supervision

The WS8938W is a supervised unit that sends periodic transmissions to the receiver to indicate functionality and battery status. If the transmission fails to reach the receiver after a programmed length of time, a trouble is indicated at the control panel keypad.
