To arm entire system - both interior and perimeter
- Close all windows and doors. The green Ready light turns ON.
- Press and hold [5] for 2 seconds, or enter your 4-digit Master Code or User Code. The keypad beeps rapidly 6 times and the red Armed light turns ON.
- Exit the premises before the delay time expires. The keypad beeps rapidly for the last 10 seconds.

To disarm system when you return
- When you enter through the door, the keypad emits a steady warning tone.
- Enter your 4-digit Master Code or User Code. The armed light turns OFF. If you make an error, press [9] and enter the 4-digit code again.

To arm perimeter of building and still move freely inside (Stay arming)
- Press and hold [2] for 2 seconds or enter your 4-digit code. Do not exit the premises through a designated Exit/Entry door.

To arm system with door or window open
- Press [*][1] while disarmed. The Bypass light flashes.
- Enter the 2-digit zone number to be bypassed. The zone light turns on, indicating it is bypassed.
- To exit the Bypass function, press [9].

To silence alarm
- Enter your 4-digit Master Code or User Code.

When yellow trouble light comes on
- Press [*][1] if Trouble number 8 is lit, reset the time and date. For all other trouble conditions, contact your security provider.

To set time and date
- Press [*][8] and enter the 4-digit Master Code.
- 1 long beep indicates an error; enter the Master Code again.
- After 3 short beeps, press [1] then 10 digits: 2 each for the hour, minute, month, year and day (H:MM MM/DD/YY).
- Use a 24-hour clock (e.g., 8:30 pm = 20:30).
- Use 2 digits each to indicate the month and day (e.g., March 8 = 03 08).

To add Access Codes
- Press [*][5] and enter the 4-digit Master Code.
- 1 long beep indicates an error; enter the Master Code again.
- 3 short beeps indicates acknowledgment; enter a 2-digit user number to be programmed. User Codes 01-39 can be removed; Code 40 is the Master and cannot be removed.

To change keypad buzzer tone
Press and hold the [*] key to hear different tones. Once the desired level is reached, press [*] to exit.

To sound an alarm manually
- Press and hold [*] and [9] keys at the same time for 2 seconds (Fire).
- Press and hold [7] and [9] keys at the same time for 2 seconds (Panic).

Security Instructions for User: This equipment contains no user-serviceable components.

WARNING: DO NOT ATTEMPT TO OPEN the equipment as this may cause a fire and/or electric shock. Do not use solvents to clean the keypad as their use may damage it.

WARNING: This equipment, when powered directly, has no mains on/off switch. The direct plug-in power supply is intended to serve as the disconnecting device if the equipment must be quickly disconnected. It is imperative that access to the mains plug and associated mains socket/outlet is never obstructed.

To change your Master Code, enter [*][5][current Master Code][40][new Master Code].

To remove Access Codes
- Press [*][5] and enter the 4-digit Master Code.
- 3 short beeps indicate acknowledgement; enter a 2-digit user number to be removed. User Codes 01-39 can be removed. Code 40 is the Master and cannot be removed.
- Enter [*] to remove the code and press [9] to exit.

To enable door chime feature
- Press and hold [8] for 2 seconds: 3 beeps = ON; 1 long beep = OFF

Limited Warranty

Digital Security Controls warrants that for a period of 12 months from the date of purchase, the product shall be free of defects in materials and workmanship and is warranted to perform in accordance with the instructions provided with the product. This warranty applies only to defects in parts and workmanship and not to damage incurred in shipping or handling, or damage due to causes beyond the control of the Digital Security Controls such as, but not limited to, excessive voltage, mechanical shock, water damage, or alteration, improper application or operation of the product.

The warranty will only apply to the original buyer, and shall be invalid in the event of any defect which, in the opinion of Digital Security Controls, shall be due to the inadvisable treatment, abuse or misuse of the product, or the installation or repair of the product by unauthorized persons.

In the event a product is returned under this warranty to Digital Security Controls, the repairs shall be made at the option of Digital Security Controls, and the company shall not be obligated to refund the purchase price paid for the product, either in cash or in credits against any other purchase. However, Digital Security Controls reserves the right to accept the return of any product for refund of purchase price, provided that such return is made within the warranty period and that the product is returned in its original packing material with the original purchase receipt. Digital Security Controls further reserves the right to refuse to make any refund for the product if the product is not returned in its original condition, or if the product is not returned with the original purchase receipt.
