3G4010

3G (HSPA) Cellular Alarm Communicator

Installation Guide V4.0
For installation manual, visit www.dsc.com

Warning: This manual contains information on limitations regarding product use and function and information on the limitations as to liability of the manufacturer. The entire manual should be carefully read.
IMPORTANT
The equipment is fixed, wall-mounted and shall be installed in the position specified in these instructions. The equipment enclosure must be fully assembled and closed, with all the necessary screws-tabs and secured to a wall before operation. Internal wiring must be routed in a manner that prevents:
- Excessive strain on wire and on terminal connections
- Loosening of terminal; connections
- Damage of conductor insulation

WARNING: Never install this equipment during a lightning storm!

Instruct the end-user to:
- Not attempt to service this product. Opening or removing covers may expose the user to dangerous voltages or other risks. Any servicing shall be referred to trained service persons only.
- Use authorized accessories only with this equipment.
Do not dispose of the battery in fire or water. Disposing of the battery in a fire will cause rupture and explosion. Do not dispose of the waste battery as unsorted municipal waste. Consult your local regulations and /or laws regarding recycling with regard to this lead-acid battery. Doing so will help protect the environment. Some of the materials that are found within the battery could become toxic if not disposed of properly and may affect the environment.

NOTICE TO USERS, INSTALLERS, AUTHORITIES HAVING JURISDICTION AND OTHER INVOLVED PARTIES
This product incorporates field-programmable software. In order for the product to comply with the requirements in the Standard for Control Units and Accessories for Fire Alarm Systems, UL 864, certain programming features or options must be limited to the specific values or not used at all as indicated below.

<table>
<thead>
<tr>
<th>Program Feature or Option</th>
<th>Permitted in UL 864 (Y/N)?</th>
<th>Possible Settings</th>

</tbody>
</table>

NOTE: This product has been tested in accordance with UL 864 9th edition. According to this edition of the standard, the supervision window for reporting single-technology communicator trouble shall be set to five minutes. However, the product can be installed in accordance with the requirements of NFPA72 2013 edition, which allows for a 60-minute supervision window.

Introduction

The 3G4010 is a cellular communicator that sends alarm system information to a Sur-Gard System I-IP, II, III, IV or 5 receiver through a 3G (HSPA) or 2G (GPRS) cellular network. This cellular communicator can be used with UL/ULC Listed compatible control units, as indicated in the manufacturer’s installation instructions.

NOTE: The 3G4010 is designed to work with the Contact ID communication format as described in the SIA DC-05 standard and the SIA DC-03 standard for 300 baud. Before completing the field installation of the alarm monitoring system please ensure communication with the supervising central station is successful by sending several events and getting confirmation that they have been received.

Features
- Dual-band UMTS/HSPA; Quad-Band GSM/EDGE Radio
- Advanced Carrier Selection
- Bi-color Wireless Signal Strength Indicator
- 3G (HSPA) / 2G (GPRS) / Internet communication with Sur-Gard SG-System I-IP / II / III / IV / 5
- Compatible with 4-digit or 10-digit Contact ID communication format as described in SIA DC-05 Standard and the SIA DC-03 standard for 300 baud. Example of suitable compatible alarm panels:
  - DSC Models PC1864, PC1832, PC1616, PC4020
- Panel Transmission Monitoring for up to four phone numbers
- Simulates landline
- Switches automatically to the 3G (HSPA) or 2G (GPRS) network in the event of landline trouble (e.g., line down)
- Four Programmable (NO/NC/SEOL) Inputs
- 12V 1.2Ah battery (optional, not included)
- Case Tamper Output
- Landline overvoltage protection
- Four Programmable Outputs
- DLS support for status, firmware updates and remote debug enable
- Remote Firmware Upgrade
- Remote Diagnostics
- Panel Format Detection
Technical Specifications
The input voltage to the 3G4010 can be drawn from the UL/ULC Listed control panel or provided by an external UL/ULC Listed power supply rated for the application (external power-limited source).
NOTE: The power supply must be Class 2, Power Limited. For residential applications a suitable power adaptor is model DSC ADP1310-NAU or DSC ADP1320-NAU (for USA) and model DSC ADP1310-NA or DSC ADP1310-NA (for Canada).

Identification of Parts
All circuits are classified for UL installations as Power Limited/Class II Power Limited except for the battery leads which are not power limited. Do not route any wiring over circuit boards. Maintain at least 1" (25.4mm) separation. A minimum 1/4" (6.4mm) of separation must be maintained at all points between Power Limited wiring and all other non-Power Limited wiring. Route wires as indicated above.
This equipment 3G4010 is fixed and shall be installed by Service Persons only (Service Person is defined as a person having the appropriate technical training and experience necessary to be aware of hazards to which that person may be exposed in performing a task, and of measures available to minimize the risks to that person or other persons). It shall be installed and used within an environment that provides the pollution degree max 2, over voltages category II, in non-hazardous, indoor locations only. This manual shall be used with the Installation Manual of the relevant alarm control panel. All instructions specified within that manual must be observed.

## Installing the 3G4010

### C24 Communications Enrolment

The 3G4010 requires enrolment with C24 Communications to operate. For more information, please visit www.connect24.com, contact C24 Communications customer service at 1-888-251-7458 (US) / 1-888-955-5583 (Canada) or contact the central station to inquire if they are a C24 Communications Master Reseller.

**NOTE:** Enrollment with C24 Communications should be performed before turning on the 3G4010 unit. Before inserting or removing the SIM card, please ensure the unit is turned off.

### Step 1 - Initialize the 3G4010 with C24 Communications

The 3G4010 can be initialized with C24 Communications by:

- **web:** www.connect24.com
- **mobile:** m.connect24.com

To complete enrolment, a C24 profile, installer ID/PIN (or web credentials) and the 20-digit SIM number are required.

**NOTE:** The SIM activation process with the cellular carrier typically takes between five and ten minutes to complete.

### Step 2 - Determine the Best Signal Location

1. Remove the front cover by removing the four cover screws.
2. Apply power (DC and/or battery). The 3G4010 is now in placement test mode.

#### Step 2a – SIM card is activated.

The red LED will be on solid, the blue LED will be off and the signal strength LEDs will display the average signal strength. In this state, the 3G4010 is registered to the cellular network.

If the signal strength is too low (bottom signal LED off or flashing), the 3G4010 will move to **Step 3** and scan for carriers with sufficient signal strength and attach to the carrier. If the 3G4010 is connected to a carrier with sufficient signal strength (minimum of bottom signal strength LED on solid), it will move to **Step 4**.

#### Step 2b – SIM card is not activated

The red LED will flash, the blue LED will be off and the signal strength LEDs will display the average signal strength.

In this state, the 3G4010 is unable to register to the cellular network because it is inactive. The signal strength indicated is from any nearby cell tower (including cellular towers belonging to non-roaming partners) and does not necessarily reflect the signal strength of the intended network. The 3G4010 will remain in this state until the SIM is activated. Once the SIM is activated, the 3G4010 will move to **Step 2a**.

### Step 3 – Carrier Scanning due to insufficient signal strength

The 3G4010 will scan the surrounding cellular network and connect to the carrier to provide a signal strength of at least 7 CSQ.

When this action is being performed, all four LEDs will activate to show a scanning sequence. The LEDs will cycle from top to bottom and then bottom to top. This cycle will continue until the 3G4010 is connected to a carrier with a signal strength above 7 CSQ (minimum of bottom signal strength LED on solid).

Once this is completed, the 3G4010 will move to **Step 4**.

### Step 4 - Acquire C24 Communications programming

The red LED will be on solid and the blue LED will flash. The flashing of the blue LED indicates that the 3G4010 has requested programming from C24 Communications and is waiting for a response.

Once remote programming is completed, the blue LED will switch to solid and the 3G4010 will move to **Step 5**.

### Step 5 – Receiver Initialization

The red LED and the blue LED are both solid and the signal strength LEDs are off.

When the 3G4010 sends a request to communicate with the central station, the top signal strength LED will begin flashing.

When the central station communicates back with the 3G4010, the top signal strength LED will turn on solid.

When the 3G4010 sends a request to communicate with the next central station, the bottom signal strength LED will begin flashing and turn on solid when it receives a communication back from the central station.

If at least one of the central stations did not respond back to the communicator, the signal strength LED corresponding to that central station will turn off. Once the initialization sequence is complete, the 3G4010 will move on to steady state operation.

### Step 6 - Mount the 3G4010

1. Power down the 3G4010 by removing the DC power source and battery leads.
2. Using the cabinet, mark the four screw locations. Drill the anchor screw holes.

**NOTE:** Check for cable conduits and water pipes before drilling.

3. Using anchor screws (not provided), mount the cabinet to the wall.
4. Run the cables through the cable entry [13] or through the cabinet knockouts.
NOTE: Ensure that power and Telco circuit connections are made only after the cabinet has been secured to the building or structure, and has been connected to the protective earth ground.

6. Reattach the front cover [1] securely to the cabinet.

NOTE: Please refer to Figure 2 at the end of this manual for wiring diagrams.
WARNING! HIGH VOLTAGE. DISCONNECT AC POWER & TELEPHONE LINES PRIOR TO SERVICING

Battery not required if CON5 is set to NO BAT

Typical battery charge: 30-50 mA
Recommended Model: 12V/1.2Ah

For ULC Installations, the system shall be installed in accordance with chapter 2 of the ANSI/NFPA 72 and ANSI/NFPA 70. Recommended locations and wiring methods shall be in accordance with the National Electrical Code, ANSI/NFPA 70, the Standard for Installation and Classification of Burglar and Holdup Alarm Systems, UL 681, and the Standard for Central-Station Alarm Services, UL 827.

For ULC Installations, the recommended locations and wiring methods shall be in accordance with CSA C22.1, Canadian Electrical Code, Part I, Safety Standard for Electrical Installations; CAN/ULC-S302, Installation and Classification of Burglar Alarm Systems for Financial and Commercial Premises, Safes and Vaults; and CAN/ULC-S301, Standard for Central and Monitoring Station Burglar Alarm Systems and the Standard for the Installation of Residential Fire Warning Systems, CAN/ULC-S540. Do not install the equipment in places where the signal strength does not meet the minimum recommended signal strength level. Do not run zone inputs and T1/R1 wiring along AC wires or other circuits with high frequency signals in order to reduce possibility of interference and false alarms.

NOTE: For ULC Commercial Fire and Burglary Installation requirements please refer to Figures 5, 6, 7 & 8 and to the ULC Installation Guide P/N 29002157RXXXX.

For ULC Fire Monitoring installations fire alarm signals shall be sent simultaneously over POTS line (using the dialler) and over the wireless network (using 3G4010). Connect alarm output from control panel (PGM) to the input on the 3G4010 that is programmed as a Fire Alarm Input.

Examples of Control Units/Subscribers Units or Power Supplies compatible models: DSC PC1864, PC1832, PC1616, PC5204, etc.

For UL Installations, the system shall be installed in accordance with chapter 2 of the ANSI/NFPA 72 and ANSI/NFPA 70. Recommended locations and wiring methods shall be in accordance with the National Electrical Code, ANSI/NFPA 70, the Standard for Installation and Classification of Burglar and Holdup Alarm Systems, UL 681, and the Standard for Central-Station Alarm Services, UL 827.

For UL Installations, the system shall be installed in accordance with chapter 2 of the ANSI/NFPA 72 and ANSI/NFPA 70. Recommended locations and wiring methods shall be in accordance with the National Electrical Code, ANSI/NFPA 70, the Standard for Installation and Classification of Burglar and Holdup Alarm Systems, UL 681, and the Standard for Central-Station Alarm Services, UL 827.
IMPORTANT - READ CAREFULLY: DSC Software purchased with or without Products and Component is copyrighted and is purchased under the following license agreement:

This End-User License Agreement ("EULA") is a legal agreement between You (the company, individual or entity who acquired the Software and any related Hardware) and Digital Security Controls, a division of Tyco Safety Products Canada Ltd. ("DSC"), the manufacturer of the Integrated security systems and the software provided by the Software and any related products or components ("SOFTWARE") which You acquired.

If the DSC software product ("SOFTWARE PRODUCT" or "SOFTWARE") is intended to be accompanied by HARDWARE, and is NOT accompanied by new HARDWARE, You may not use, copy or install the SOFTWARE PRODUCT. The SOFTWARE PRODUCT includes computer software, and may include associated documentation, "Hardware" (run, shared or used concurrently or from different computers, including a workstation, terminal or other digital electronic device ("Computer"). In other words, if you have several workstations, you will have to acquire a license for each workstation where the SOFTWARE is used. You may use the back-up copy solely for archival purposes. Except as expressly provided in this EULA, You may not otherwise make copies of the SOFTWARE PRODUCT, including the printed materials accompanying the SOFTWARE.

1. GRANT OF LICENSE This EULA grants you the following rights:

Software Installation and Use - For each license you acquire, you may have only one copy of the SOFTWARE PRODUCT installed.

Storage/Network Use - The SOFTWARE PRODUCT may not be installed, accessed, or run, shared or used concurrently or from different computers, including a workstation, terminal or other digital electronic device ("Computer"). In other words, if you have several workstations, you will have to acquire a license for each workstation where the SOFTWARE is used. You may use the back-up copy solely for archival purposes. Except as expressly provided in this EULA, you may not otherwise make copies of the SOFTWARE PRODUCT, including the printed materials accompanying the SOFTWARE.

2. DESCRIPTION OF OTHER RIGHTS AND LIMITATIONS

Limitations on Reverse Engineering, Decompilation and Disassembly - You may not reverse engineer, decompile, or disassemble the SOFTWARE PRODUCT, except and only to the extent that such activity is expressly permitted by applicable law notwithstanding this limitation. You may not make any changes or modifications to the Software, without the written permission of an officer of DSC. You may not remove any proprietary notices, marks or labels from the Software.

Software Product Transfer - You may transfer all of your rights under this EULA only as part of a permanent sale or transfer of the HARDWARE, provided you retain no copies. You transfer all the SOFTWARE PRODUCT (including all component parts, the media and printed materials, any upgrades and this EULA), and provided the recipient agrees to the terms and conditions of this EULA. If the SOFTWARE PRODUCT is an upgrade, any transfer must also include all modifications and upgrades to the SOFTWARE PRODUCT.

Termination - Without prejudice to any other rights, DSC may terminate this EULA if you fail to comply with the terms and conditions of this EULA. In such event, You must destroy copies of the SOFTWARE PRODUCT and all its component parts.

Trademarks - This EULA does not grant You any rights in connection with any trademarks or service marks of DSC or its suppliers.

3. COPYRIGHT

All title and intellectual property rights in and to the SOFTWARE PRODUCT (including but not limited to any images, photographs, and text incorporated into the SOFTWARE PRODUCT) and to any accompanying printed materials, and any copies of the SOFTWARE PRODUCT, are owned by DSC or its suppliers. You may not copy the printed materials accompanying the SOFTWARE PRODUCT. All title and intellectual property rights in and to the content which may be accessed through use of the SOFTWARE PRODUCT are the property of the respective content owner and may be protected by applicable copyright or other intellectual property laws and treaties. The END User Grants You no rights to use such content. All rights not expressly granted under this EULA are reserved by DSC and its suppliers.

RESTRICTIONS - You agree that you will not export or re-export the SOFTWARE PRODUCT to any country, person, or entity subject to Canadian export restrictions.

CHOICE OF LAW - This Software License Agreement is governed by the laws of the Province of Ontario, Canada.

DISCLAIMER OF LIABILITY - In no event shall DSC be liable for any accidental, consequential, or indirect damages, including, but not limited to, damages for loss of business profits, business interruption, loss of business information, or any other pecuniary loss, incurred by any party as the result of using the SOFTWARE PRODUCT, EVEN IF DSC HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. DSC MADE THE SOFTWARE PRODUCT AND ACCOMPANYING DOCUMENTS "AS IS" WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, EITHER EXPRESS OR IMPLIED. DSC SPECIFICALLY DISCLAIMS ANY IMPLIED WARRANTIES, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY, TITLE, AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE SOFTWARE PRODUCT IS WITH YOU. IN THE EVENT THE SOFTWARE PRODUCT IS LUKE-CONFORMING, YOU AGREE THAT ANY CLAIMS RESULTING FROM THE EVENT, INCLUDING CLAIMS OF PERSONAL INJURY OR DEATH, WHICH COMES TO LIGHT FOLLOWING THE TIME WHEN YOU HAVE TRANSACTIONS WITH THE SOFTWARE PRODUCT, WERE YOU PROVIDED INCOME FROM THE SALE OF THE SOFTWARE PRODUCT.

LIMITED WARRANTY - DSC PROVIDES THE SOFTWARE AS "AS IS" WITHOUT WARRANTY, DSC DISCLAIMS NO WARRANTIES THAT THE SOFTWARE WILL MEET YOUR REQUIREMENTS OR THAT THE OPERATION OF THE SOFTWARE WILL BE UNINTERRUPTED OR ERROR-FREE.

CHANGES TO THE SOFTWARE PRODUCT - DSC shall not be responsible for changes caused by the operating characteristics of the HARDWARE, or for problems in the interaction of the SOFTWARE PRODUCT with non-DSC Software PRODUCTS or HARDWARE PRODUCTS.

LIMITATION OF LIABILITY; WARRANTY REFLECTS ALLOCATION OF RISK - IN ANY EVENT, IF ANY STATUTE IMPLIES WARRANTIES OR CONDITIONS NOT STATED IN THIS LICENSE AGREEMENT, DSC'S ENTIRE LIABILITY UNDER ANY PROVISION OF THIS LICENSE AGREEMENT SHALL BE LIMITED TO THE GREATER OF THE AMOUNT ACTUALLY PAID BY YOU TO LICENSE THE SOFTWARE PRODUCT AND FIVE CANADIAN DOLLARS (CAD$5.00), BECAUSE SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OR LIMITATION OF LIABILITY FOR CONSEQUENTIAL OR INCIDENTAL DAMAGES, THE ABOVE LIMITATION MAY NOT APPLY TO YOU.

DISCLAIMER OF WARRANTIES - THIS WARRANTY CONTAINS THE ENTIRE WARRANTY AND SHALL BE IN LIEU OF ANY AND ALL OTHER WARRANTIES, WHETHER EXPRESS OR IMPLIED (INCLUDING ALL IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE) AND OF ALL OTHER OBLIGATIONS OR LIABILITIES ON THE PART OF DSC. DSC MAKES NO OTHER WARRANTIES. DSC NEITHER ASSUMES NOR AUTHORIZES ANY PERSON OR ENTITY TO PURPORT TO ACT ON ITS BEHALF TO MODIFY OR TO CHANGE THIS WARRANTY, NOR TO ASSUME FOR IT ANY OTHER WARRANTY OR LIABILITY CONCERNING THIS SOFTWARE PRODUCT.

EXCLUSIVE REMEDY AND LIMITATION OF LIABILITY - UNDER NO CIRCUMSTANCES SHALL DSC BE LIABLE FOR ANY SPECIAL, INCIDENTAL, CONSEQUENTIAL OR INDIRECT DAMAGES BASED UPON BREACH OF WARRANTY, BREACH OF CONTRACT, NEGLIGENCE, STRICT LIABILITY, OR ANY OTHER LEGAL THEORY. SUCH DAMAGES INCLUDE, BUT ARE NOT LIMITED TO, LOSS OF PROFITS, LOSS OF THE SOFTWARE PRODUCT OR ANY ASSOCIATED EQUIPMENT, COST OF CAPITAL, COST OF SUBSTITUTE OR REPLACEMENT EQUIPMENT, FACILITIES OR SERVICES, DOWN TIME, PURCHASERS' TIME, THE CLAIMS OF THIRD PARTIES, INCLUDING CUSTOMERS, AND INJURY TO PROPERTY.

DSC recommends that the entire system be completely tested on a regular basis. However, despite frequent testing, and due to, but not limited to, criminal tampering or electrical disruption, it is possible for this SOFTWARE PRODUCT to fail to perform as expected.

Regulatory Information

MODIFICATION STATEMENT

Digital Security Controls has not approved any changes or modifications to this device by the user. Any changes or modifications could void the user's authority to operate the equipment.

Digital Security Controls reserves the right to add new equipment, and you must report it to the authority to operate.

INTERFERENCE STATEMENT

This equipment complies with Part 15 of the FCC Rules and Industry Canada license-exempt RSS standard. Operation is subject to the following two conditions:

1) this device may not cause interference, and
2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes: (1) l'appareil ne doit pas causer d'interférences et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

WIRELESS NOTICE

This equipment complies with FCC and IC radiation exposure limits set forth for an uncontrolled environment. The antenna should be installed and operated with minimum distance of 20 cm between the radiator and your body.

Frequency Band: 3400MHz

Gain max: 6dBi

GSM850/FDDV

6.21 dB
If this equipment is to be used in Canada, it must be labeled with a telephone number indicating the name and telephone number of the party to contact regarding any interference experienced with radio or television reception. This number is 1-888-CALL-OCC (1-888-225-5622) and is maintained by Industry Canada.

Changes in Telephone Company Equipment or Facilities

The Telephone Company may make changes in its facilities, equipment, operations or procedures that could affect the operation of the equipment. If this happens, the Telephone Company will provide advance notice in order for you to make necessary modifications to maintain uninterrupted service.

Equipment Maintenance Facility

If trouble is experienced with this equipment for repair or warranty information, please contact the facility indicated below. If the equipment is causing harm to the telephone network, the Telephone Company may request that you disconnect the equipment until the problem is solved. This equipment is of a type that is not intended to be repaired by the end user.

Warranty

The warranty for this telephone equipment is ninety (90) days, limited to the original purchaser or user. Upon return of the equipment to the factory, at no charge for labour and materials, any replacement or repaired parts are warranted for the remainder of the original warranty period,

International Warranty

The warranty for international customers is the same as for any customer within Canada and the United States, with the exception that Digital Security Controls shall not be responsible for any customs fees, taxes, or VAT that may be due.

Warranty Procedure

To obtain service under this warranty, please return the item(s) in question to the point of purchase. All authorized distributors and dealers have a warranty program. Anyone returning goods to Digital Security Controls must first obtain an

Industry Canada Compliance Statement

This equipment meets the applicable Industry Canada Terminal Equipment Technical Specifications. This equipment complies with Industry Canada ICES-003. The IC compatible equipment must not be co-located or operating in conjunction with any other antenna or transmitters.

FC CLASS B DIGITAL DEVICE NOTICE

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

CAUTION:

The user is cautioned that any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Looking for a Digital Device Notice in Canada?

If you need a Digital Device Notice for a Class B digital device in Canada, you can find it here: https://www.ic.gc.ca/eic/site/eng/csp-bsp.nsf/eng/00057.html
Conditions to Void Warranty
This warranty applies only to defects in parts and workmanship relating to normal use. It does not cover:
- damage incurred in shipping or handling;
- damage caused by disaster such as fire, flood, wind, earthquake or lightning;
- damage due to causes beyond the control of Digital Security Controls such as excessive voltage, mechanical shock or water damage;
- damage caused by unauthorized attachment, alterations, modifications or foreign objects;
- damage caused by peripherals (unless such peripherals were supplied by Digital Security Controls);
- defects caused by failure to provide a suitable installation environment for the products;
- damage caused by use of the products for purposes other than those for which it was designed;
- damage from improper maintenance;
- damage arising out of any other abuse, mishandling or improper application of the products.

Items Not Covered by Warranty
In addition to the items which void the Warranty, the following items shall not be covered by Warranty: (i) freight cost to the repair centre; (ii) products which are not identified with DSC’s product label and lot number or serial number; (iii) products disassembled or repaired in such a manner as to adversely affect performance or prevent adequate inspection or testing to verify any warranty claim. Access cards or tags returned for replacement under warranty will be credited or replaced at DSC’s option. Products not covered by this warranty, or otherwise out of warranty due to age, abuse, misuse, or damage shall be evaluated, and a repair estimate shall be provided. No repair work will be performed until a valid purchase order is received from the Customer and a Return Merchandise Authorization number (RMA) is issued by DSC’s Customer Service.

Digital Security Controls’ liability for failure to repair the product under this warranty after a reasonable number of attempts will be limited to a replacement of the product, as the exclusive remedy for breach of warranty. Under no circumstances shall Digital Security Controls be liable for any special, incidental, or consequential damages based upon breach of warranty, breach of contract, negligence, strict liability, or any other legal theory. Such damages include, but are not limited to, loss of profits, loss of the product or any associated equipment, cost of capital, cost of substitute or replacement equipment, facilities or services, down time, purchaser’s time, the claims of third parties, including customers, and injury to property. The laws of some jurisdictions limit or do not allow the disclaimer of consequential damages. If the laws of such a jurisdiction apply to any claim by or against DSC, the limitations and disclaimers contained here shall be to the greatest extent permitted by law. Some states do not allow the exclusion or limitation of incidental or consequential damages, so that the above may not apply to you.

Disclaimer of Warranties
This warranty contains the entire warranty and shall be in lieu of any and all other warranties, whether expressed or implied (including all implied warranties of merchantability or fitness for a particular purpose) And of all other obligations or liabilities on the part of Digital Security Controls. Digital Security Controls neither assumes responsibility for, nor authorizes any other person purporting to act on its behalf to modify or to change this warranty, nor to assume for it any other warranty or liability concerning this product. This disclaimer of warranties and limited warranty are governed by the laws of the province of Ontario, Canada.

Digital Security Controls recommends that the entire system be completely tested on a regular basis. However, despite frequent testing, and due to, but not limited to, criminal tampering or electrical disruption, it is possible for this product to fail to perform as expected.

Installer’s Lockout
Any products returned to DSC which have the Installer’s Lockout option enabled and exhibit no other problems will be subject to a service charge.

Out of Warranty Repairs
Digital Security Controls will not repair or replace out-of-warranty products which are returned to its factory according to the following conditions. Anyone returning goods to Digital Security Controls must first obtain an authorization number. Digital Security Controls will not accept any shipment whatever for which prior authorization has not been obtained.

Products which Digital Security Controls determines to be repairable will be repaired and returned. A set fee which Digital Security Controls has predeterined and which may be revised from time to time, will be charged for each unit repaired.

Products which Digital Security Controls determines not to be repairable will be replaced by the nearest equivalent product available at that time. The current market price of the replacement product will be charged for each replacement unit.
