

HSM2208 v1.1 Installation Instructions

8 Low-Current Output Expander Module

Use this Installation sheet with the Installation Manual of the equipment with which the HSM2208 is used, such as the alarm controller, power supply, etc. Use the HSM2208 module to add up to eight low-current programmable outputs to the compatible alarm controller models. This module is compatible with PowerSeries Neo (HS2016, HS2032, HS2064, HS2128) and PowerSeries Pro (HS3032, HS3128) panels.

Specifications

- Temperature range: -10°C to +55°C (0°C to +49°C for UL/ULC listed systems).
- Relative Humidity: Max. 93% relative humidity non-condensing.
- Input rating: 10.8 VDC to 12.5 VDC/700 mA (includes 250 mA AUX maximum plus 50 mA for each of the 8 outputs).
- Maximum loading is shared with compatible alarm panel or power supply AUX output.
- Board current draw: 60 mA (set and unset state/alarm and non-alarm state).
- Board dimensions: 45 mm x 92 mm, weight 35 g.
- AUX output ratings: 10.8 VDC to 12.5 VDC, -15% / + 15% when Input voltage is between 85% to 110% of rated value and output current is between 0 mA to 250 mA max.
- PGM outputs: Open collector, switched to ground, 50 mA max.
- Resettable fuse (PTC) used on circuit board instead of replaceable fuses. There are no serviceable parts.
- Maximum wire length from alarm panel: 1,000 ft/305 m.

Terminal Descriptions

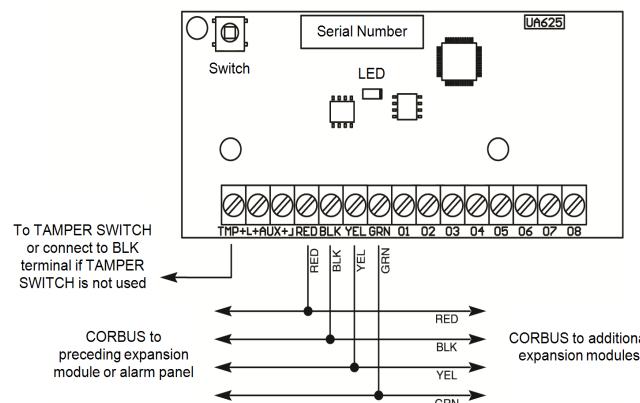

TMP - Used to tamper the cabinet in which the HSM2208 is mounted. Connect a normally closed (NC) switch across TMP and BLK. If the tamper is not being used, connect a piece of wire across TMP and BLK to remove the trouble condition.

NOTE:

- There is a built-in tamper switch on the expander module located in the top left corner of the circuit board. If the cabinet in which the HSM2208 is mounted has the hardware required to depress this tamper switch, do not connect anything to the TMP terminal.
- Tamper protect is required for UL/ULC commercial/residential burglary installations.

AUX+ - There are two terminals for AUX power to provide easier wiring. These terminals are used to provide power for devices. Maximum current draw must not exceed 250 mA. Connect the positive lead of powered devices to either AUX+ and the negative to the proper output terminal (O1 to O8).

CORBUS - The 4-wire Corbus connection is used by the panel to communicate with the module. Connect the RED, BLK, YEL and GRN terminals to the Corbus terminals on the main control panel.

O1 to O8 - Wire the positive lead of the device to either AUX terminal and the negative lead to the required output terminal (O1 to O8).

Enclosures

You must install the HSM2208 in the same metallic cabinet as the alarm controller/power supply or in a separate enclosure. Internal and/or external wiring for this module must be routed, supported, clamped or secured to reduce the possibility of excessive strain on wire and on terminal connections, loosening of terminal connections, and damage of conductor insulation. You must install the HSM2208 in the metal enclosures listed below. You can install tamper protection switches on all enclosures, including door opening protection and/or removal from the mounting position. Secure the doors using screws or a keylock.

Powerseries Product enclosures:

- Model HSC3010C (hinged door) made of 18 Ga steel, painted white, dimensions 372 mm x 412 mm x 114 mm.
- Model HSC3010CR (hinged door) made of 18 Ga steel, painted red, dimensions 372 mm x 412 mm x 114 mm.
- Model HSC3030CAR (hinged door) made of 18 Ga steel (base) and 16 Ga (door), painted white, dimensions 375 mm x 412 mm x 114 mm.
- Model HSC3020C (removable door) made of 18 Ga steel, painted white, dimensions 459 mm x 414 mm x 103 mm.
- Model HSC3020CP (removable door) made of PC-ABS, color white, dimensions 368 mm x 489 mm x 108 mm.

Powerseries Neo enclosures:

- Model PC5003C (removable door)
- Model PC5003C (hinged door)
- Model Power UCI
- Model PC4003C
- Model CMC-1
- Model PC4050CAR (commercial burglary)
- Model PC4050CR (ULC-S559)

NOTE: Use HSC3010C, PC4003C or PC5003C for UL/ULC installations.

Automatically Enrolling on the Alarm Panel

To enroll the HSM2208, complete the following steps:

- Ensure that the system is not powered.
- Connect the HSM2208 to the Corbus.
- Power up the system.
- Enter section [902] [000] and wait 1 minute.
- To verify that the module is supervised, enter section [903] [003].

Manually Enrolling on the Alarm Panel

To enroll the HSM2208, complete the following steps:

- Ensure that the system is not powered.
- Connect the HSM2208 to the Corbus.
- Power up the system.
- Enter section [902] [001].
- Enter the module serial number.
- Enter section [903] [003] to verify that the module is supervised.

Status LED

The HSM2208 is equipped with a status LED to indicate the current condition of the module. If the HSM2208 is operating correctly, the status LED flashes briefly every 10 seconds. When a trouble condition is present, the status LED displays a series of flashes then remains blank for 1.5 seconds. The number of flashes indicates the trouble condition, as outlined below.

Number of Flashes	Trouble Condition
1	Module not enrolled
2	Alarm Panel supervision trouble
3	CORBUS low voltage

Table 1: Status LED

Limited Warranty

Digital Security Controls (DSC) warrants that for a period of twelve months from the date of purchase, the product shall be free of defects in materials and workmanship under normal use and that in fulfillment of any of such warranty, DSC, at its option, repair or replace its defective equipment upon return of the equipment to its factory. This warranty applies only to defects in parts and workmanship and not to damage incurred in shipping or handling, or damage due to causes beyond the control of DSC such as lightning, excessive voltage, mechanical shock, water damage, or damage arising out of abuse, after use or improper application of the equipment.

The foregoing warranty shall apply only to the original buyer, and is and shall be in lieu of any and all other warranties, whether expressed or implied and of all other obligations or liabilities on the part of DSC. This warranty contains the entire warranty of Digital Security Controls for its defective equipment upon return of the equipment to its factory. This warranty applies only to defects in parts and workmanship and not to damage incurred in shipping or handling, or damage due to causes beyond the control of DSC such as lightning, excessive voltage, mechanical shock, water damage, or damage arising out of abuse, after use or improper application of the equipment.

IMPORTANT - READ CAREFULLY: DSC Software purchased with or without hardware and Components is copyrighted and is purchased under the following license terms: This End User License Agreement ("EULA") is a legal agreement between You (the company, individual or entity who acquired the Software and any related products or components ("HARDWARE"), which You acquired, if the Software product ("SOFTWARE PRODUCT" or "SOFTWARE") is intended to be accompanied by HARDWARE, and is NOT accompanied by new HARDWARE. You may not copy, copy or install along with the SOFTWARE PRODUCT that is associated with a separate end-user license agreement is licensed to You under the terms of that license agreement. Any software provided along with the SOFTWARE PRODUCT includes computer software, and may include associated end-user license agreements or software documentation. You are responsible for obtaining a valid license for the SOFTWARE PRODUCT. By installing, copying, downloading, storing, accessing or otherwise using the SOFTWARE PRODUCT, You agree unconditionally to be bound by the terms of this EULA, even if this EULA is deemed to be a modification of previous arrangement or contract. If you do not agree to the terms of this EULA, DSC is unwilling to license the SOFTWARE PRODUCT to You, and You have no right to use it.

SOFTWARE PRODUCT LICENSE

The SOFTWARE PRODUCT is protected by copyright laws and international copyright treaties, as well as other intellectual property laws and treaties. The SOFTWARE PRODUCT is licensed, not sold. 1. GRANT OF LICENSE: This EULA grants You the following rights:

(a) Software Installation and Use: For each license You may have, only one copy of the SOFTWARE PRODUCT installed.

(b) Single Copy Use: The SOFTWARE PRODUCT may not be installed, accessed, displayed, run, shared or used concurrently on more than one computer, terminal or other digital electronic device ("Device"). In other words, if You have several workstations, You will have to acquire a license for each workstation where the SOFTWARE WILL be used.

(c) Backup Copy: You may make back-up copies of the SOFTWARE PRODUCT, but You may only have one copy per license installed at any given time. You may use the back-up copy solely for archival purposes. Except as expressly provided in this EULA, You may not have more than one copy of the SOFTWARE PRODUCT installed at any given time.

2. DESCRIPTION OF OTHER RIGHTS AND LIMITATIONS

(d) Limitations on Reverse Engineering, Decomposition, and Disassembly: You may not reverse engineer, decompile, or disassemble the SOFTWARE PRODUCT, except and only to the extent that such activity is expressly permitted by applicable law without hindering its limitation. You may not make any changes or modifications to the Software, without the written permission of an officer of DSC. You may not remove or modify any proprietary notices, marks or labels placed on the Software Product. You shall institute reasonable measures to ensure compliance with the terms and conditions of this EULA.

(e) Separation of Components: The SOFTWARE PRODUCT is licensed as a single product. Its component parts may not be separated for use on more than one HARDWARE unit.

(f) Single Integrated Product: If You acquired this SOFTWARE with HARDWARE, then the SOFTWARE PRODUCT is licensed with the HARDWARE as a single integrated product. In this case, the SOFTWARE PRODUCT is only used with the HARDWARE as set forth in this EULA.

(g) Rent: You may not rent, lease, lend or lend the SOFTWARE PRODUCT. You may not make it available to others or post it on a server or web site.

(h) Software Product Transfer: You may transfer all of Your rights under this EULA only as part of a permanent sale or transfer of the SOFTWARE PRODUCT, provided You retain no copies, You transfer all of the software, and You do not retain any prior versions of the SOFTWARE PRODUCT.

(i) Termination: Without prejudice to any other rights, DSC may terminate this EULA if You fail to comply with the terms and conditions of this EULA. In such event, You must destroy all copies of the SOFTWARE PRODUCT and all of its component parts.

(j) Trademarks: This EULA does not grant You any rights in connection with any trademarks or service marks of DSC or its suppliers.

3. COPIRIGHT: All title and intellectual property rights in and to the SOFTWARE PRODUCT (including but not limited to any images, photographs, and text incorporated into the SOFTWARE PRODUCT), the accompanying printed materials, and any copies of the SOFTWARE PRODUCT, are owned by DSC or its suppliers. You may not copy, print or make any other use of the SOFTWARE PRODUCT or any portion thereof, except as expressly granted by this EULA. All rights are reserved by DSC or its suppliers.

4. EXPORT RESTRICTIONS: You agree that You will not export or re-export the SOFTWARE PRODUCT to any country, person, or entity subject to Canadian export restrictions.

5. CHOICE OF LAW: This Software License Agreement is governed by the laws of the Province of Ontario, Canada.

6. ARBITRATION: All disputes arising in connection with this Agreement shall be determined by final and binding arbitration in accordance with the Arbitration Act, and the parties agree to be bound by the arbitrator's decision. The place of arbitration shall be Toronto, Canada, and the language of the arbitration shall be English.

LIMITED WARRANTY

(a) NO WARRANTY: DSC PROVIDES THE SOFTWARE AS IS™ WITHOUT WARRANTY. DSC DOES NOT WARRANT THAT THE SOFTWARE WILL MEET YOUR REQUIREMENTS OR THAT OPERATION OF THE SOFTWARE WILL BE UNINTERRUPTED OR ERROR-FREE.

(b) CHANGES IN OPERATING ENVIRONMENT: DSC shall not be responsible for problems caused by changes in the operating characteristics of the HARDWARE, or for problems in the interaction of the SOFTWARE PRODUCT with non-DSC SOFTWARE or HARDWARE PRODUCTS.

(c) LIMITATION OF LIABILITY: WARRANTY REFLECTS ALLOCATION OF RISK - IN ANY EVENT, IF ANY STATUTE IMPLIES WARRANTIES OR CONDITIONS NOT STATED IN THIS LICENSE AGREEMENT, DSC'S ENTIRE LIABILITY UNDER ANY PROVISION OF THIS LICENSE AGREEMENT SHALL BE LIMITED TO THE GREATER OF THE AMOUNT ACTUALLY PAID BY YOU TO LICENSE THE SOFTWARE PRODUCT AND FIVE CANADIAN DOLLARS (CAD\$0.00). BECAUSE SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OR LIMITATION OF LIABILITY FOR CONSEQUENTIAL OR INCIDENTAL DAMAGES, THE ABOVE LIMITATION MAY NOT APPLY TO YOU.

(d) DISCLAIMER OF WARRANTY: THE WARRANTY CONTAINS THE ENTIRE WARRANTY AND SHALL BE IN LIEU OF ANY AND ALL OTHER WARRANTIES, WHETHER EXPRESSED OR IMPLIED (INCLUDING IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE AND OF ALL OTHER LEGAL THEORIES). SUCH DAMAGES INCLUDE, BUT ARE NOT LIMITED TO, LOSS OF PROFITS, LOSS OF THE SOFTWARE PRODUCT OR ANY ASSOCIATED EQUIPMENT, COST OF CAPITAL, COST OF SUBSTITUTE OR REPAIR EQUIPMENT, FACILITIES OR SERVICES, DOWN TIME, PURCHASER'S TIME, THE CLAIMS OF THIRD PARTIES, INCLUDING CUSTOMERS, AND INJURY TO PROPERTY. WARNING: DSC recommends that the entire system be completely tested on a regular basis. However, despite frequent testing, and due to, not limited to, criminal tampering or electrical disruption, it is possible for this SOFTWARE PRODUCT to fail to perform as expected.

FCC COMPLIANCE STATEMENT

CAUTION: Changes or modifications not expressly approved by DSC could void your authority to use this equipment. This equipment generates and uses radio frequency energy if not installed and used properly in strict accordance with the manufacturer's instructions, may cause interference to radio and television reception. It has been tested and found to comply with its limits for Class B devices in accordance with the specifications in Subpart B of Part 15 of FCC Rules, which are designed to provide reasonable protection against such interference in a residential installation. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause interference to television or radio reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

* Re-orient the receiving antenna
 * Relocate the alarm control unit with respect to the receiver
 * Move the alarm control unit away from the receiver
 * Connect the alarm control unit to a different outlet so that alarm control and receiver are on different circuits.
 If necessary, the user should consult the dealer or an experienced radio/television technician for additional suggestions. The user may find the following booklet prepared by the FCC useful: "How to Identify and Resolve Radio/Television Interference Problems". This booklet is available from the U.S. Government Printing Office, Washington D.C. 20402, Stock # 004-000-00345.

EN CERTIFICATION

The Model HSM2208 Out put Module has been certified by Teleclic according to EN50131-1:2006 + A1:2009 and EN50131-3:2009 Type A for Grade 2, Class II when installed in the PC5003C enclosure.

HSM2208 v1.1 - Instructions d'installation

Module d'extension de 8 sorties à faible courant

Cette fiche d'installation doit être utilisée avec le manuel d'installation de l'équipement qui alimente le HSM2208, tel que le contrôleur d'alarme, l'alimentation électrique, etc. Utilisez le module HSM2208 pour ajouter jusqu'à huit sorties programmables à faible courant sur les modèles de contrôleur d'alarme compatibles. Ce module est compatible avec les centrales PowerSeries Neo (HS2016, HS2032, HS2064, HS2128) et PowerSeries Pro (HS3032, HS3128).

Caractéristiques

- Plage de température : -10 °C à +55 °C (0 °C à +49 °C pour les systèmes homologués UL/ULC)
- Humidité relative : 93 % d'humidité relative maximale, sans condensation.
