

D-305868

PG9901/PG8901/PG4901

Supervised Wireless PowerG Indoor Siren Installation Instructions

Overview

The PGx901 is a fully supervised, 2-way wireless PowerG indoor siren, designed for installation in areas where wiring is difficult.

Features

- Built-in link quality indicators reduce installation time by eliminating the need for the installer to physically approach the control panel.
- Multiple sound types: Burglar (between 1400Hz - 3200Hz), fire, gas/CO and flood.
- Entry/Exit beep can be enabled via the control panel to sound once the user has armed the system and once the user has entered the protected area.
- Squawk (beep) sounds can be configured via the control panel to indicate alarm system arming (1 squawk) and disarming (2 squawks) by a wireless key.
- Double Tamper protection sends a tamper alarm to the system if the siren front panel is removed or if the siren is removed from the wall.

NOTE: Sounder activates for a predefined duration as per local requirements, or until the system is disarmed. The strobe light operates as described in the HSM2HOST installation manual.

Operation

- Siren and strobe light activate when an identified event message is received from the alarm system.
- When the battery voltage is low, a low battery message is sent to the alarm system. After message delivery, at least 2 siren alarms are possible before the siren is totally inactive.

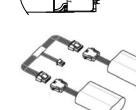

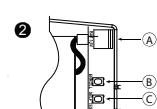

Device Setup

Caution! To be installed by service persons in non-hazardous locations only. Risk of explosion if battery is replaced by an incorrect type. Observe polarity when installing batteries. Dispose of used batteries according to the manufacturer's instructions and according to local rules and regulations.

WARNING: Batteries are to be replaced by service persons only. **Note:** To ensure the continued operation of all wireless devices after performing a system default, a global upload of all wireless programming via DLS is recommended before defaulting the system. After completing the system default, download the wireless programming.

Legend

- A. Battery connector
- B. Enroll button
- C. Self test button
- D. Dual battery cable adapter
- E. For back tamper screw

Installing or replacing the batteries

1. Loosen cover screw and remove cover.

2. Using the cable adapter, connect batteries to the proper connectors.

Note: When manually programming wireless devices, if a device has been powered up for more than 48 hours it cannot be enrolled into the system until the device has been tampered and restored. When programming the panel using the Quick Enroll procedure follow the steps detailed in "Enroll the Device" below.

Note: After restoring a low battery trouble the system may take up to 5 minutes to clear the trouble.

Enroll the Device

Refer to the PowerSeries Neo Host Installation Manual or iotega Reference Manual for the enrollment procedure.

Local Diagnostics and Placement Test

Before permanently mounting any wireless device it is recommended to mount the device temporarily and perform a Local Diagnostics test.

- Before testing, remove the plastic cover.
- Press the self-test button once and release it; The red LED will switch ON and then OFF, the green LED will switch ON and then OFF, the strobe light will switch ON and then OFF and the piezo siren will sound to indicating that the siren is fully operational.
- After 2 seconds the LED blinks 3 times indicating the signal strength.

The following table indicates the received signal strength.

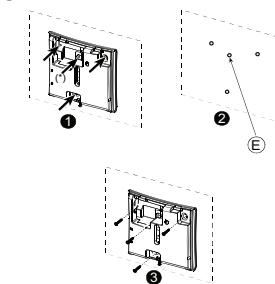

LED response	Reception
Green LED blinks	STRONG
Orange LED blinks	GOOD
Red LED blinks	POOR
No blinks	No communication

IMPORTANT! Only GOOD or STRONG signal strengths are acceptable. If you receive a POOR signal from the device, relocate it and re-test until a GOOD or STRONG signal is received.

Note: For UL/ULC installations, only STRONG signal levels are acceptable. After installation verify the product functionality in conjunction with the compatible receivers.

Note: For detailed Placement instructions refer to the control panel Reference Guide.

Mounting the Device

Configuration

The following programmable option is available:

Partition Assignment

Press the digits of desired assigned partitions.

Device Toggles

The following are 8-bit toggles

- 01- Fire - Default [ON]
- 02- CO - Default [ON]
- 03- Burg - Default [ON]
- 04- Flood - Default [ON]
- 06- Auto Tmp Alarm - Default [OFF]

Strobe Alarm - Default [01]

- 01 - Disabled
- 02 - Timer Limited
- 03 - Until Disarmed

Exit Entry Beeps - Default [01]

- 01 - Disabled
- 02 - Enabled
- 03 - Disabled Stay

Squawk - Default [02]

- 01 - Disabled
- 02 - Sounder Only
- 03 - Strobe Only
- 04 - Sounder and Strobe

Sounder Volume - Default [02]

- 01 - Low
- 02 - Medium
- 03 - High

Specifications

Alarm Sound Level: 85 dB at 3 m (10 feet)

Frequency Band (MHz): CE Listed PG4901: 433MHz; CE/EN listed PG8901: 868MHz; FCC/IC/UL/ULC listed PG9901: 915MHz

Modulation: GFSK

Antenna: Built-in antenna

Communication Protocol: PowerG

Siren Type: One Piezo 109 db min. Sound Pressure Level @ 1m, 1400Hz – 3200 Hz, sweep frequency 7 Hz.

Battery Type: Four 3.6V/3.5A/H Lithium independent cells (EVE ER18505M) assembled in two plastic wrappings and connected to the cable adapter.)

Note: Use only the above battery.

Note: The strobe flashes 5 times and the red LED lights continuously during first battery installation.

Battery Life Expectancy: 8 years (not verified by UL/ULC)

Low Battery Threshold: 2 V +300 mV negative slope OR 1.2 V

Strobe Light: Pulsed @ 1 sec.

Temperature range: -10°C to +55°C (UL/ULC only verified the range 0°-49°C)

Relative Humidity: up to max. 93% RH, non-condensing (UL/ULC only verified up to max 85% RH)

Dimensions (L x W x D): 161x161x50 mm (6-7/16 x 6-7/16 x 3/4 in)

Weight (including battery): 470g (16.5 oz.)

Color: White (with transparent lens)

Compatible Receivers

This device can be used with DSC panels and receivers that use PowerG technology.

For UL/ULC installations use these device only in conjunction with compatible DSC wireless receivers: WS900-19, WS900-29, HSM2HOST9, HS2LCDRF(P)9, HS2ICNRF(P)9 and PG9920.

After installation verify the product functionality in conjunction with the compatible receiver used.

Note: Only devices operating in band 912-919MHz are UL/ULC listed.

UL/ULC Notes

The PG9901 has been listed by UL/ULC for Residential Burglary / Fire applications in accordance to UL 1023/ C1023 Household burglar Alarms system units and UL 985/ULC-S545 Household fire.

CE The PG8901 is certified by DNV (DET NORSKE VERITAS) to the following standards: EN50131-4, EN50131-1 GRADE 2, CLASS II, EN50131-6 Type C. DNV (DET NORSKE VERITAS) has certified only the 868 MHz variant of this product. According to EN 50131-1:2006 and A1:2009, this equipment can be applied in installed systems up to and including Security Grade 2, Environmental Class II, UK: The PG8901 is suitable for use in systems installed to conform to PD6662:2010 at Grade 2 and environmental class 2. BS8243 The Power G peripheral devices have two-way communication functionality, providing additional benefits as described in the technical brochure. This functionality has not been tested to comply with the respective technical requirements and should therefore be considered outside the scope of the product's certification.

FCC COMPLIANCE STATEMENT

WARNING! Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in residential installations. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio and television reception. However, there is no guarantee that interference will not occur in a particular installation. If this device does cause such interference, which can be verified by turning the device off and on, the user is encouraged to eliminate the interference by one or more of the following measures:

- Re-orient or re-locate the receiving antenna.
- Increase the distance between the device and the receiver.

- Connect the device to an outlet on a circuit different from the one that supplies power to the receiver.

- Consult the dealer or an experienced radio/TV technician.

This equipment complies with FCC and IC RF radiation exposure limits set forth for an uncontrolled environment.

WARNING! To comply with FCC and IC RF exposure compliance requirements, the smoke detector should be located at a distance of at least 20 cm from all persons during normal operation. The antennas used for this product must not be co-located or operated in conjunction with any other antenna or transmitter. This device complies with FCC Rules Part 15 and with Industry Can-

ada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference that may be received or that may cause undesired operation.

IC:160A - PG9901: The term "IC" before the radio certification number only signifies that Industry Canada technical specifications were met.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes : (1) l'appareil ne doit pas causer de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

SIMPLIFIED EU DECLARATION OF CONFORMITY

Hereby, Tyco Safety Products Canada Ltd. declares that the radio equipment type is in compliance with Directive 2014/53/EU. The full text of the EU declarations of conformity for the models mentioned below are available at the following internet addresses:

PG4901 - <http://ds.com/pdf/1401001>

PG8901 - <http://ds.com/pdf/1401024>

Légende

- A. Connecteur de la batterie
- B. Bouton d'attribution
- C. Bouton d'autodiagnostic
- D. Câble adaptateur de batterie double
- E. Vis du contact arrière anti-sabotage

- Installation de la batterie**
- Desserrez la vis du couvercle et retirez le couvercle.
 - Utilisant le câble adaptateur, branchez les batteries aux connecteurs appropriés.
- Remarque :** Quand vous programmez manuellement les dispositifs sans fil, si un dispositif a été alimenté pendant plus de 48 heures, il ne peut pas être attribué dans le système tant que le dispositif n'a pas été saboté et rétabli.
- Remarque:** Après la restauration d'un défaut de batterie faible, le système peut prendre jusqu'à 5 minutes pour que la peine.

Attribuez le dispositif dans le système

Consultez les instructions d'installation PowerSeries Neo Host ou le manuel de référence iotega pour plus informations sur l'attribution.

Diagnostics locaux et test de positionnement

Avant de fixer de façon permanente un dispositif sans fil quelconque, il est conseillé de le monter temporairement et d'effectuer un test de diagnostic local.

- Avant de tester, retirez le cache en plastique.
 - Appuyez une fois sur le bouton d'autodiagnostic et relâchez. Le voyant lumineux rouge s'allume puis s'éteint, le voyant lumineux vert s'allume puis s'éteint, la lampe stroboscopique s'allume puis s'éteint et la sirène piézoélectrique retentit pour signaler qu'elle est entièrement opérationnelle.
 - Au bout de 2 secondes, le voyant clignote 3 fois pour indiquer la force du signal.
- Le tableau suivant décrit la force de signal reçue.

Réponse du voyant	Réception
Le voyant vert clignote	FORT
Le voyant orange clignote	BON
Le voyant rouge clignote	FAIBLE
Aucun clignotement	Aucune communication

IMPORTANT ! Seules les forces de signal FORT ou BON sont acceptables. Si vous recevez un signal FAIBLE du dispositif, déplacez-le et testez-le à nouveau jusqu'à ce qu'un signal BON ou FORT soit reçu.

Remarque : Pour les installations UL/ULC, seul un signal FORT est acceptable. Après installation, vérifiez les fonctionnalités de l'appareil en association avec les récepteurs compatibles.

Remarque : Pour les instructions détaillées sur le positionnement, consultez le guide de référence de la centrale.

Installation de l'appareil

- Réglage du dispositif**
- Attention !** A faire installer par un agent de service dans des zones non dangereuses uniquement. Risque d'explosion si la pile n'est pas du type correct. Respecter les polarités lors de l'installation des piles. Éliminer les piles usagées selon les recommandations du fabricant, les lois et réglementations locales.
- AVERTISSEMENT !** Les piles doivent être remplacées uniquement par un agent de service.
- Remarque :** Pour garantir le fonctionnement continu de tous les dispositifs sans fil après avoir réalisé une réinitialisation aux valeurs par défaut, un téléchargement général de toute la programmation sans fil par DLS est recommandé avant de réinitialiser le système. Après avoir complété la réinitialisation aux valeurs par défaut du système, téléchargez la programmation sans fil.
- Marquez pour le perçage.
 - Percez 4 trous.
 - Serrez avec les 4 vis fournies.

Configuration

Les options programmables suivantes sont disponibles:

Affectation de la partition

Appuyez sur les chiffres des partitions affectées désirées.

Commutateurs du dispositif

Tous les éléments ci-dessous correspondent aux basculements 8 bits

- 01 - Détection incendie : Valeur par défaut [Activé]
- 02 - Détection CO : Valeur par défaut [Activé]
- 03 - Détection intrusion : Valeur par défaut [Activé]
- 04 - Détection d'inondation : Valeur par défaut [Activé]
- 06 - Alarme anti-sabotage automatique : Valeur par défaut [Désactivé]

Alarme stroboscopique : Valeur par défaut [01]

- 01 - Désactivée
- 02 - Temporisée
- 03 - Jusqu'à désarmement

Bips sonores d'entrée ou sortie : Valeur par défaut [01]

- 01 - Désactivée
- 02 - Activés
- 03 - Désactivés en mode à domicile

Tonalité : Valeur par défaut [02]

- 01 - Désactivée
 - 02 - Avertisseur uniquement
 - 03 - Lampe stroboscopique uniquement
 - 04 - Avertisseur et lampe stroboscopique
- Volume de l'avertisseur : Valeur par défaut [02]
- 01 - Faible
 - 02 - Moyen
 - 03 - Fort

Caractéristiques techniques

Niveau sonore d'alarme : 85 dB à 3 m (10 pieds)

Plage de fréquences (Mhz) : PG4901 homologué CE : 433 MHz ; PG8901 homologué CE/EN : 868 MHz ; PG9901 homologué FCC/IC/UL/ULC : 915 MHz

Modulation : GFSK

Antenne : Antenne intégrée

Protocole de communication : PowerG

Type de sirène : Niveau de pression acoustique capteur piezoélectrique 109 dB min. à 1 m, de 1400 Hz à 3200 Hz, fréquence de balayage 7 Hz.

Type de pile : Quatre 3.6V/3.5AH Cellules au lithium indépendantes (EVE ER18505M) assemblées en deux emballages plastique et reliées à l'adaptateur de câble.

Remarque : Utilisez uniquement la pile indiquée ci-dessus.

Remarque : La lampe stroboscopique clignote 5 fois et le voyant lumineux rouge reste allumé pendant la première installation de la pile.

Durée de vie estimée de la pile : 8 ans (non vérifiés par les organismes UL/ULC)

Seuil de niveau faible de pile : 2 V +300 mV à pente négative OU 1.2 V

Lampe stroboscopique : À impulsions de 1 s.

Plage de température : de -10 °C à +55 °C (l'organisme UL/ULC a vérifié uniquement la plage de 0 °C à 49 °C)

Taux d'humidité relative : jusqu'à 93 % max., sans condensation (l'organisme UL/ULC a vérifié uniquement jusqu'à 85 % max.)

Dimensions (L x P x H) : 161 x 161 x 50 mm (6.7/16 x 6.7/16 x 1-3/4 pouces)

Poids (pile incluse) : 470 g (16.5 oz.)

Couleur : Blanc (objectif transparent)

Récepteurs compatibles

Cet appareil peut être utilisé avec les centrales et les récepteurs DSC dotés de la technologie PowerG.

Pour les installations UL/ULC, utilisez uniquement ces dispositifs en association avec des récepteurs sans fil DSC compatibles : WS900-19, WS900-29, HSM2HOST9, HS2LCDRF(P)9, HS2ICNRFP(P)9 et PG9920.

Remarque : Seul le modèle PG9901 fonctionnant dans la bande de fréquences 912-919 MHz est homologué UL/ULC.

Remarques UL/ULC

Le PG9901 a été classé par UL / ULC pour les applications cambriolage résidentiel / feu conformément à la norme UL 1023 / C1023 cambrioleur ménages Alarms Les unités du système et de feu UL 985/ULC-S545 ménages.

 Le PG8901 est certifié par DNV (DET NORSKE VERITAS) pour les normes suivantes : EN50131-4, EN50131-1 GRADE 2, CLASSE II, EN50131-6 Type C. DNV (DET NORSKE VERITAS) a certifié uniquement la variante à 868 MHz de ce produit. Selon les normes EN 50131-1:2006 et A1:2009, cet équipement peut être intégré dans les systèmes installés jusqu'à et y compris la classe

environnementale II, niveau de sécurité 2. Royaume-Uni : Le PG8901 convient pour l'utilisation dans les systèmes installés pour se conformer à la norme PD6662:2010 à la classe environnementale 2 et de niveau de sécurité 2. Les dispositifs périphériques Power G BS8243 sont dotés d'une fonction de communication bidirectionnelle, offrant des avantages supplémentaires comme décrit dans la brochure technique. Cette fonction n'a pas été déclarée conforme aux besoins techniques respectifs et doit, par conséquent, être exclue de la certification du produit.

DÉCLARATION DE CONFORMITÉ UE SIMPLIFIÉE

Le soussigné, Tyco Safety Products Canada Ltd déclare que le type d'équipement radioélectrique est conforme à la directive 2014/53/UE. Le texte complet de la déclaration UE de conformité est disponible à l'adresse internet suivante:

Instrucciones de instalación de sirena interior PowerG inalámbrica supervisada

Descripción general

El modelo PG9901 es una sirena interior PowerG inalámbrica y totalmente supervisada de 2 vías. Diseñado para instalación en áreas donde el cableado es difícil o imposible.

Características

- Los indicadores de calidad de enlace incorporados reducen el tiempo de instalación al eliminar la necesidad del instalador de acercarse físicamente al panel de control.
- Tipos múltiples de sonido: Robo (entre 1400 Hz a 3200 Hz), incendio, gas/CO e inundación.
- El pitido de ingreso/salida puede habilitarse mediante el panel de control para sonar una vez que el usuario ha armado el sistema y cuando el usuario ha ingresado el área protegida.
- Los sonidos de graznido (pitido) se pueden configurar a través del panel de control para indicar que el sistema de alarma se está armando (1 graznido) o desarmando (2 graznidos) mediante llavero a distancia.
- La doble protección contra manipulación envía una alarma por manipulación al sistema si se retira el panel delantero de la sirena o si la sirena se retira de la pared.

Notas: El dispositivo sonoro se activa por una duración predefinida según los requisitos locales, o hasta que el sistema se desarma. La luz estroboscópica funciona según lo descrito en el manual de instalación del HSM2HOST.

Operación

- La sirena y la luz estroboscópica se activan cuando se recibe un mensaje de evento identificado del sistema de alarma.
- Cuando el voltaje de la batería es bajo, un mensaje de batería baja se envía al sistema de alarma. Después de la entrega del mensaje, son posibles al menos 2 alarmas de sirena antes de que la sirena esté totalmente inactiva.

Configuración del dispositivo

Precaución! Para ser instalado por personal de servicio técnico solo en ubicaciones no peligrosas. Riesgo de explosión si la batería es reemplazada por otra del tipo incorrecto. Observe la polaridad al instalar las baterías. Deseeche las baterías usadas según las instrucciones del fabricante y de acuerdo con los reglamentos y leyes locales.

ADVERTENCIA: Las baterías deben ser reemplazadas solamente por personal de servicio técnico.

Nota: Para asegurar la operación continuada de todos los dispositivos inalámbricos después de realizar una puesta del sistema a sus valores predeterminados, se recomienda realizar una carga global de toda la programación inalámbrica vía DLS antes de poner el sistema en sus valores predeterminados. Después de terminar la puesta del sistema a sus valores predeterminados, descargue la programación inalámbrica.

Legenda

A. Conector de batería

B. Botón de asociación

C. Botón de auto-prueba

D. Cable adaptador para batería dual

E. Para el tornillo de manipulación trasera

Instalación de la batería

1. Afloje el tornillo de la cubierta y retire la cubierta.
2. Utilizando el cable adaptador, conecte las baterías a los conectores apropiados.

Nota: Al programar manualmente los dispositivos inalámbricos, si un dispositivo ha estado alimentado por más de 48 horas, no podrá asociarse en el sistema hasta que haya sido manipulado y restaurado.

Nota: Después de restaurar un problema de batería baja, el sistema puede tardar hasta 5 minutos para eliminar el problema.

Asocie el dispositivo al sistema

Consulte el manual de instalación de PowerSeries Neo Host o el manual de referencia iotega para obtener más información sobre la asociación del dispositivo.

Diagnóstico local y Prueba de colocación

Antes de montar permanentemente cualquier dispositivo inalámbrico, se recomienda montar el dispositivo temporalmente y realizar una prueba de Diagnóstico local.

1. Antes de la prueba, retire la cubierta plástica.
2. Presione el botón de autoprueba una vez y suéltelo; el LED rojo se encenderá y se apagará, el LED verde se encenderá y se apagará y la sirena estroboscópica se encenderá y se apagará y la sirena piezoelectrica sonará para indicar que está completamente operacional.
3. Después de 2 segundos el LED parpadea 3 veces indicando la potencia de la señal.

La tabla siguiente indica la potencia de la señal recibida.

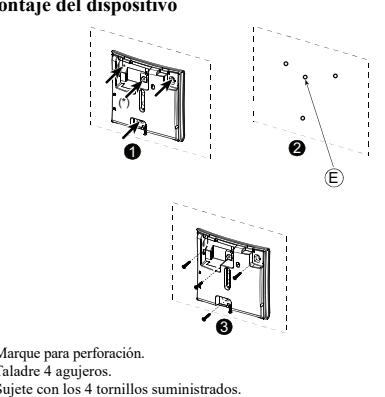

Respuesta del LED	Recepción
El LED verde parpadea	FUERTE
El LED naranja parpadea	BUENA
El LED rojo parpadea	BAJA
No parpadea	Ninguna comunicación

IMPORTANTE! Solamente las potencias de señal BUENA o FUERTE son aceptables. Si usted recibe una señal BAJA del dispositivo, reubíquelo y vuelva a probarlo hasta que reciba una señal BUENA o FUERTE.

Nota: Para instalaciones UL/ULC, solamente los niveles de señal FUERTE son aceptables. Después de la instalación, verifique la funcionalidad del producto junto con los receptores compatibles.

Nota: Puede encontrar instrucciones detalladas sobre la colocación en la Guía de referencia del panel de control.

Montaje del dispositivo

Configuración

Las siguientes opciones programables están disponibles:

Asignación de la partición

Pulse los dígitos de las particiones asignadas deseadas.

Commutadores de dispositivo

Los siguientes son commutadores de 8 bits

- 01 - Incendio - Predeterminado [Habilitado]
- 02 - CO - Predeterminado [Habilitado]
- 03 - Robo - Predeterminado [Habilitado]
- 04 - Inundación - Predeterminado [Habilitado]
- 06 - Alarma autom. contra manipul. - Predeterminado [Deshabilitado]

Alarma estroboscópica - Predeterminado [01]

- 01 - Deshabilitado
- 02 - Temporizador limitado
- 03 - Hasta desarmado

Pitidos de salida e ingreso - Predeterminado [01]

- 01 - Deshabilitado
- 02 - Habilitado
- 03 - Presencia deshabilitada

Graznido - Predeterminado [02]

- 01 - Deshabilitado
- 02 - Solo dispositivo sonoro
- 03 - Solo luz estroboscópica
- 04 - Dispositivo sonoro y luz estroboscópica

Volumen de dispositivo sonoro - Predeterminado [02]

- 01 - Bajo
- 02 - Medio
- 03 - Alto

Especificaciones

Nivel de sonido de la alarma: 85 dB a 3 m (10 pies)

Banda de frecuencia (MHz): PG4901 homologado por CE: 433 MHz; PG8901 homologado por CE/EN: 868 MHz; PG9901 homologado por FCC/IC/UL/ULC: 915 MHz

Modulación: GFSK

Antena: Antena integrada

Protocolo de comunicación: PowerG

Tipo de sirena: Piezo de 109 dB min. a 1 m, 1400 Hz - 3200 Hz, frecuencia de barido 7 Hz.

Tipo de batería: Cuatro baterías de litio de 3.6V/3.5A independientes (EVE ER18505M), ensambladas en dos paquetes con envoltura plástica y conectadas al cable adaptador.

Nota: Utilice solamente la batería mencionada anteriormente.

Nota: La luz estroboscópica destella 5 veces y el LED rojo se enciende continuamente durante la primera instalación de la batería.

Vida útil de la batería: 8 años (no verificado por UL/ULC)

Umbral de batería baja: 2 V +300 mV de pendiente negativa O 1.2 V

Luz estroboscópica: Pulsado a 1 seg.

Rango de temperatura: -10 °C a +55 °C (UL/ULC solo verificado en el rango entre 0 °C y 49 °C)

Humedad relativa: hasta 93% como máximo de humedad relativa, sin condensación (UL/ULC solo verificado hasta 85% como máximo de humedad relativa)

Dimensiones (Largo x Ancho x Fondo): 161x161x50 mm (6.7/16 x 6.7/16 x 1-3/4 pulg.)

Peso (incluyendo batería): 470 g (16.5 oz.)

Color: Blanco (con lente transparente)

Receptores compatibles

Es posible utilizar este dispositivo con paneles y receptores DSC que usen tecnología PowerG.

Para instalaciones UL/ULC USE estos dispositivos solamente con receptores inalámbricos DSC compatibles: WS900-19, WS900-29, HSM2HOST9, HS2LCDRF(P)9, HS2ICNRFP(P)9 y PG9920. Después de la instalación, verifique la funcionalidad del producto junto con el receptor compatible utilizado.

NOTA: Solo los dispositivos que operan en la banda de 912-919 MHz están homologados por UL/ULC.

Notas UL/ULC

El PG9901 ha sido listado por UL / ULC para aplicaciones Robo Residencial / de fuego de acuerdo con la norma UL 1023 / unidades del sistema C1023 Hogar Alarms antirrobo y contra incendios UL 985/ULC-S545 hogar.

 El modelo PG8901 está certificado por DNV (DET NORSKE VERITAS) según las siguientes normas: EN50131-4, EN50131-1 GRADE 2, CLASE II, EN50131-6 Tipo C. DNV (DET NORSKE VERITAS) ha certificado solamente la versión de 868 MHz de este producto. De acuerdo con las normas EN 50131-1:2006 y A1:2009, este equipo puede ser aplicado en sistemas instalados hasta e incluyendo el Grado 2 de Seguridad, Clase ambiental II.

Reino Unido: El modelo PG8901 es adecuado para uso en sistemas instalados para cumplir con PD6662:2010 en el Grado 2 y Clase ambiental 2. BS8243 Los dispositivos periféricos Power G tienen funcionalidad de comunicación de dos vías, lo que proporciona ventajas adicionales como se describen en el folleto técnico. No se ha probado que estas funciones cumplan con los requisitos técnicos correspondientes y, por lo tanto, deberían considerarse fuera del alcance de la certificación del producto.

DECLARACIÓN DE CONFORMIDAD SIMPLIFICADA PARA LA UE

Por la presente, Tyco Safety Products Canada Ltd declara que el tipo de equipo de radio cumple con la Directiva 2014/53/UE. El texto completo de la declaración de conformidad para la UE está disponible en la dirección de Internet siguiente:

PG9901/PG8901/PG4901

Instruções de Instalação da Sirene Interior PowerG sem fio, supervisionada

Resumo

O modelo PG9901 é uma sirene interior PowerG sem fio, 2 vias, totalmente supervisionada. Destinada para instalação em zonas onde aiação é difícil ou impossível.

Características

• Os indicadores de qualidade de ligação integrada reduzem o tempo de instalação, eliminando a necessidade de o instalador se aproximar do painel de controle.

• Tipos múltiplos de som: Roubo (entre 1400Hz - 3200Hz), incêndio, gás/CO e inundação.

• O b op Entrada/Saída pode ser ativado através do painel de controle para soar sempre que o usuário tiver armado o sistema ou sempre que tiver entrado na zona protegida.

• Os sons de apito (bip) podem ser configurados através do painel de controle para indicar o armamento do sistema de alarme (1 apito) e para desarmar (2 apitos) através do comando portátil.

• A proteção de Bloqueio Duplo envia um alarme de bloqueio para o sistema ou o painel frontal da sirene se retirado ou se a sirene for retirada da parede.

Funcionamento

• A luz da sirene e estroboscópica ativa-se sempre que é recebida uma mensagem de evento de um sistema de alarme.

• Quando a tensão da bateria está fraca, é enviada uma mensagem de bateria fraca para o sistema de alarme. Depois da entrega da mensagem, são possíveis pelo menos 2 sirenes de alarme antes da sirene ficar totalmente inativa.

Configurar Dispositivo

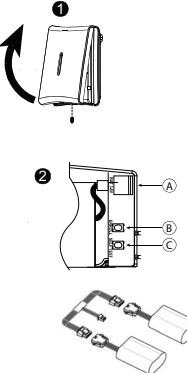

Cuidado! Deve ser instalada por pessoas qualificadas apenas em locais não perigosos. Risco de explosão se a bateria for substituída por um tipo incorreto. Respeitar a polaridade quando instalar as baterias. A eliminação das baterias usadas deve estar de acordo com as instruções do fabricante e conforme as regulamentações e normas locais.

Aviso: Baterias são apenas substituídas por pessoal qualificado.

Nota: Para garantir um funcionamento contínuo de todo os dispositivos sem fio depois de executar uma predefinição do sistema é recomendado um carregamento global da utilização de todos os dispositivos sem fio através DLS antes de padronizar o sistema. Depois de concluir a predefinição do sistema, faça o download da programação sem fio.

Configuração

Estão disponíveis as seguintes opções programáveis:

Atribuição de Partição

Pressione os dígitos das partícipes atribuídas desejadas.

Comutações do Dispositivo

Os seguintes são fechamentos de 8 bits

- 01 - Incêndio - Predefinido [Ativado]
- 02 - CO - Predefinido [Ativado]
- 03 - Roubo - Predefinido [Ativado]
- 04 - Inundaçāo - Predefinido [Ativado]
- 06 - Alarme Blq automático - Predefinido [Desativado]

Alarme Estroboscópico - Predefinido [01]

- 01 - Desativado
- 02 - Temporizador Limitado
- 03 - Até Desarmado

Bip Saída Entrada - Predefinido [01]

- 01 - Desativado
- 02 - Ativado
- 03 - Presente Desativado

Alarme Estroboscópico - Predefinido [02]

- 01 - Desativado
- 02 - Apenas Receptor Acústico
- 03 - Apenas Estroboscópico
- 04 - Receptor Acústico e Estroboscópico

VOLUME DO RECEPTOR ACÚSTICO - Predefinido [02]

- 01 - Baixo
- 02 - Médio
- 03 - Alto

Especificações

Nível de som do alarme: 85dB a 3m (10 pés)

Faixa de Frequência (MHz): PG4901 com classificação CE: 433MHz; PG8901 com classificação CE/EN: 868MHz; PG9901 com classificação FCC/IC/UL/ULC: 915MHz

Modulação: GFSK

Antena: Antena integrada

Protocolo de Comunicação: PowerG

Tipo de sirene: Um Piezo 109db min. Nível de pressão sonora @ 1m, 1400Hz-3200Hz, varrido de frequência 7Hz.

Tipo de bateria: Quatro 3.6V/3.5Ah células independentes litio (EVE ER18505M) montadas em dois invólucros de plástico e ligado ao adaptador de cabo

Nota: Use apenas a bateria mencionada acima.

Nota: O estroboscópico piscá 5 vezes e o LED vermelho acende continuamente durante a primeira instalação da bateria.

Duração da bateria: 8 anos (não verificado por UL/ULC)

Límite bateria fraca: 2V + 300mV inclinação negativa OU 1.2V

Luz Estroboscópica: Pulsada a cada 1 seg.

Límite de temperatura: -10°C a +55°C (UL apenas verificado a 0°C - 49°C)

Umidade Relativa: máx. 93%RH, sem condensação (UL/ULC apenas verificado máx 85%RH)

Dimensões (CxLxP): 161x161x50mm (6-7/16 x 6-7/16 x 1-3/4 pol)

Peso (com bateria): 470g (16,5oz)

Cor: Branco (com lente transparente)

Diagnóstico Local e teste de Colocação

Antes de montar permanentemente qualquer dispositivo sem fio, é recomendado montar temporariamente o dispositivo e realizar um teste de Diagnóstico Local.

1. Antes de testar, remova a tampa plástica.

2. Pressione o botão de auto-teste e solte-o; O LED vermelho ficará ON e depois OFF, o LED verde ficará ON e depois OFF, a luz estroboscópica ficará ON e depois OFF e a sirene piezo soará indicando que está totalmente operacional.

3. Depois de 2 segundos, o LED piscá 3 vezes indicando a intensidade do sinal.

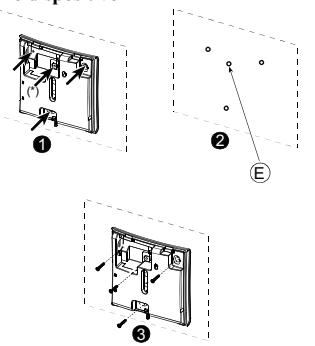

A tabela seguinte indica a intensidade do sinal recebido.

Resposta LED	Recepção
LED verde piscando	FORTE
LED laranja piscando	BOM
LED Vermelho piscando	RUIIM
Não piscá	Nenhuma comunicação

IMPORTANTE! Apenas são aceitáveis as intensidades de sinal BOM ou FORTE. Se receber um sinal FRACO do dispositivo, volte a colocar o dispositivo e volte a testar até ser recebido um sinal BOM ou FORTE.

Nota: Para instruções detalhadas de Colocação, consulte o Guia de Referência do painel de controle.

Montar o dispositivo

1. Marque para furação.
2. Furar 4 buracos.

3. Aperte com os 4 parafusos fornecidos.

Receptores Compatíveis

Este dispositivo pode ser utilizado com painéis e receptores DSC que utilizam a tecnologia PowerG.

O modelo PG8901 é certificado pela DNV (DET NORSKE VERITAS) para as seguintes normas: EN50131-4, EN50131-1 GRAU 2, CLASSE II, EN50131-6 Tipo C. A DNV (DET NORSKE VERITAS) certificou apenas a variante 868MHz deste produto. Conforme a EN 50131-1:2006 e A1:2009, este equipamento pode ser aplicado em sistemas instalados até e incluindo o Grau 2 de Segurança, Classe II Ambiental. RU: O modelo PG8901 é apropriado para usar em sistemas instalados em conformidade com PD6662:2010 no Grau 2 e classe ambiental 2. BS8243, o periférico Power G tem uma funcionalidade de comunicação em 2 vias, providenciando benefícios adicionais descritos na brochura técnica. Esta funcionalidade não foi testada para estar conforme os respectivos requisitos técnicos e deve, portanto, ser considerada fora do âmbito da certificação do produto.

DECLARAÇÃO UE DE CONFORMIDADE SIMPLIFICADA

O(a) abaixo assinado(a), Tyco Safety Products Canada Ltd declara que o presente tipo de equipamento de rádio está em conformidade com a Diretiva 2014/53/UE. O texto integral da declaração de conformidade está disponível no seguinte endereço de Internet:

PG4901 - <http://dsc.com/pdf/1401001>

PG8901 - <http://dsc.com/pdf/1401024>

Bandas de frequências / Potência máxima

g1 433.0MHz - 434.79MHz/10mW

h1.4 868.0MHz - 868.6MHz/10mW

h1.5 868.7MHz - 869.2MHz/10mW

Ponto único de contato na Europa: Tyco Safety Products, Voltaweg 20, 6101 XK Echt, Holanda.

Este equipamento opera em caráter secundário, isto é, não tem direito a proteção contra interferência prejudicial, mesmo de estações do mesmo tipo, e não pode causar interferência a sistemas operando em caráter primário.

Limited Warranty

Digital Security Controls warrants that for a period of 12 months from the date of purchase, the product shall be free of defects in materials and workmanship under normal use and that in fulfillment of any breach of such warranty, Digital Security Controls shall, at its option, repair or replace the defective equipment upon return of the equipment to its repair depot. This warranty applies only to defects in parts and workmanship and not to damage incurred in shipping or handling, or damage due to causes beyond the control of Digital Security Controls such as lightning, excessive voltage, mechanical shock, water damage, or damage arising out of abuse, alteration or improper application of the equipment.

The foregoing warranty shall apply only to the original buyer, and is shall be in lieu of any and all other warranties, whether expressed or implied and of all other obligations or liabilities on the part of Digital Security Controls. Digital Security Controls neither assumes responsibility for, nor authorizes any other person purporting to act on its behalf to modify or to change this warranty, nor to assume for it any other warranty or liability concerning this product.

In no event shall Digital Security Controls be liable for any direct, indirect or consequential damages, loss of anticipated profits, loss of time or any other losses incurred by the buyer in connection with the purchase, installation or operation or failure of this product.

Warning: Digital Security Controls recommends that the entire system be completely tested on a regular basis. However, despite frequent testing, and due to, but not limited to, criminal tampering or electrical disruption, it is possible for this product to fail to perform as expected.

Important Information: Changes or modifications not expressly approved by Digital Security Controls could void the user's authority to operate this equipment.

IMPORTANT - READ CAREFULLY: DSC Software purchased with or without Products and Components is copyrighted and is purchased under the following license terms:

- This End-User License Agreement ("EULA") is a legal agreement between You (the company, individual or entity who acquired the Software and any related Hardware) and Digital Security Controls, a division of Tyco Safety Products Canada Ltd. ("DSC"). Because of the integrated security system and the developer of the software and any related products or components ("HARDWARE") which You acquired.

- If the DSC software product ("SOFTWARE PRODUCT" or "SOFTWARE") is intended to be accompanied by HARDWARE, and is NOT accompanied by new HARDWARE. You may not use, copy or install the SOFTWARE PRODUCT. The SOFTWARE PRODUCT includes computer software, and may include associated media, printed materials, and "online" or electronic documentation.

- Any software provided along with the SOFTWARE PRODUCT that is associated with a separate end-user license agreement is licensed to You under the terms of that license agreement.

- By installing, copying, downloading, storing, accessing or otherwise using the SOFTWARE PRODUCT, You agree unconditionally to be bound by the terms of this EULA, even if this EULA is deemed to be a modification of any previous arrangement or contract. If You do not agree to the terms of this EULA, DSC is unwilling to license the SOFTWARE PRODUCT to You, and You have no right to use it.

The SOFTWARE PRODUCT is protected by copyright laws and international copyright treaties, as well as other intellectual property laws and treaties. The SOFTWARE PRODUCT is licensed, not sold.

1. GRANT OF LICENSE: This EULA grants You the following rights:

(a) Software Installation and Use - For each license You acquire, You may have only one copy of the SOFTWARE PRODUCT installed.

(b) Storage/Network Use - The SOFTWARE PRODUCT may not be installed, accessed, displayed, run, shared or used concurrently on or from different computers, including a workstation, terminal or other digital electronic device ("Device"). In other words, if You have several workstations, You will have to acquire a license for each workstation where the SOFTWARE will be used.

(c) Backup Copy - You may make back-up copies of the SOFTWARE PRODUCT, but You may only have one copy per license installed at any given time. You may use the

back-up copy solely for archival purposes. Except as expressly provided in this EULA, You may not otherwise make copies of the SOFTWARE PRODUCT, including the printed materials accompanying the SOFTWARE.

2. DESCRIPTION OF OTHER RIGHTS AND LIMITATIONS

- (a) Limitations on Reverse Engineering, Decompilation and Disassembly - You may not reverse engineer, decompile, or disassemble the SOFTWARE PRODUCT, except and only to the extent that such activity is expressly permitted by applicable law notwithstanding this limitation. You may not make any changes or modifications to the Software, without the written permission of an officer of DSC. You may not remove any proprietary notices, marks or labels from the Software Product. You shall institute reasonable measures to ensure compliance with the terms and conditions of this EULA.

- (b) Separation of Components - The SOFTWARE PRODUCT is licensed as a single product. Its component parts may not be separated for use on more than one HARDWARE unit.

- (c) Single INTEGRATED PRODUCT - If you acquired this SOFTWARE with HARDWARE, then the SOFTWARE PRODUCT is licensed with the HARDWARE as a single integrated product. In this case, the SOFTWARE PRODUCT may only be used with the HARDWARE as set forth in this EULA.

- (d) Rental - You may not rent, lease or lend the SOFTWARE PRODUCT. You may not make it available to others or post it on a server or web site.

- (e) Software Product Transfer - You may transfer all of your rights under this EULA only as part of a permanent sale or transfer of the HARDWARE, provided You retain no copies. You transfer all of the SOFTWARE PRODUCT (including all component parts, the media and printed materials, any upgrades and this EULA), and provided the recipient agrees to the terms of this EULA. If the SOFTWARE PRODUCT is an upgrade, any transfer must also include all prior versions of the SOFTWARE PRODUCT.

- (f) Termination - Without prejudice to any other rights, DSC may terminate this EULA if You fail to comply with the terms and conditions of this EULA. In such event, You may destroy all copies of the SOFTWARE PRODUCT and all of its component parts.

- (g) Trademarks - This EULA does not grant You any rights in connection with any trademarks or service marks of DSC or its suppliers.

- 3. COPYRIGHT - All title and intellectual property rights in and to the SOFTWARE PRODUCT (including but not limited to any images, photographs, and text incorporated into the SOFTWARE PRODUCT), the accompanying printed materials, and any copies of the SOFTWARE PRODUCT, are owned by DSC or its suppliers. You may not copy the printed materials accompanying the SOFTWARE PRODUCT. All title and intellectual property rights in and to the content which may be accessed through use of the SOFTWARE PRODUCT are the property of the respective content owner and may be protected by applicable copyright or other intellectual property laws and treaties. This EULA grants You no rights to use such content. All rights not expressly granted under this EULA are reserved by DSC and its suppliers.

- 4. EXPORT RESTRICTIONS - You agree that You will not export or re-export the SOFTWARE PRODUCT to any country, person, or entity subject to Canadian export restrictions.

- 5. CHOICE OF LAW - This Software License Agreement is governed by the laws of the Province of Ontario, Canada.

- 6. ARBITRATION - All disputes arising in connection with this Agreement shall be determined by final and binding arbitration in accordance with the Arbitration Act, and the parties agree to be bound by the arbitrator's decision. The place of arbitration shall be Toronto, Canada, and the language of the arbitration shall be English.

7. LIMITED WARRANTY

- (a) NO WARRANTY - DSC PROVIDES THE SOFTWARE "AS IS" WITHOUT WARRANTY. DSC DOES NOT WARRANT THAT THE SOFTWARE WILL MEET YOUR REQUIREMENTS OR THAT OPERATION OF THE SOFTWARE WILL BE UNINTERRUPTED OR ERROR-FREE.

- (b) CHANGES IN OPERATING ENVIRONMENT - DSC shall not be responsible for problems caused by changes in the operating characteristics of the HARDWARE, or for problems in the interaction of the SOFTWARE PRODUCT with non-DSC SOFTWARE or HARDWARE PRODUCTS.

- (c) LIMITATION OF LIABILITY; WARRANTY REFLECTS ALLOCATION OF RISK IN ANY EVENT, IF ANY STATUTE IMPLIES WARRANTIES OR CONDITIONS NOT STATED IN THIS LICENSE AGREEMENT, DSC'S ENTIRE LIABILITY UNDER ANY PROVISION OF THIS LICENSE AGREEMENT SHALL BE LIMITED TO THE GREATER OF THE AMOUNT ACTUALLY PAID BY YOU TO LICENSE THE SOFTWARE PRODUCT AND FIVE CANADIAN DOLLARS (CAD\$5.00). BECAUSE SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OR LIMITATION OF LIABILITY FOR CONSEQUENTIAL OR INCIDENTAL DAMAGES, THE ABOVE LIMITATION MAY NOT APPLY TO YOU.

- (d) DISCLAIMER OF WARRANTIES - THIS WARRANTY CONTAINS THE ENTIRE WARRANTY AND SHALL BE IN LIEU OF ANY AND ALL OTHER WARRANTIES, WHETHER EXPRESSED OR IMPLIED (INCLUDING ALL IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE) AND OF ALL OTHER OBLIGATIONS OR LIABILITIES ON THE PART OF DSC. DSC MAKES NO OTHER WARRANTIES, DSC NEITHER ASSUMES NOR AUTHORIZES ANY OTHER PERSON PURPORTING TO ACT ON ITS BEHALF TO MODIFY OR TO CHANGE THIS WARRANTY, NOR TO ASSUME FOR IT ANY OTHER WARRANTY OR LIABILITY CONCERNING THIS SOFTWARE PRODUCT.

- (e) EXCLUSIVE REMEDY AND LIMITATION OF WARRANTY - UNDER NO CIRCUMSTANCES SHALL DSC BE LIABLE FOR ANY SPECIAL, INCIDENTAL, CONSEQUENTIAL, OR INDIRECT DAMAGES BASED UPON BREACH OF WARRANTY, BREACH OF CONTRACT, NEGLIGENCE, STRICT LIABILITY, OR ANY OTHER LEGAL THEORY. SUCH DAMAGES INCLUDE, BUT ARE NOT LIMITED TO, LOSS OF PROFITS, LOSS OF THE SOFTWARE PRODUCT OR ANY ASSOCIATED EQUIPMENT, COST OF CAPITAL, COST OF SUBSTITUTE OR REPLACEMENT EQUIPMENT, FACILITIES OR SERVICES, DOWN TIME, PURCHASERS TIME, THE CLAIMS OF THIRD PARTIES, INCLUDING CUSTOMERS, AND INJURY TO PROPERTY.

WARNING: DSC recommends that the entire system be completely tested on a regular basis. However, despite frequent testing, and due to, but not limited to, criminal tampering or electrical disruption, it is possible for this SOFTWARE PRODUCT to fail to perform as expected.

Always ensure you obtain the latest version of the User Guide. Updated versions of this User Guide are available by contacting your distributor.

GARANTIA limitée

La société Digital Security Controls garantit le produit contre toutes défauts matériels et d'assemblage dans des conditions normales d'utilisation pendant une période de deux mois à partir de la date d'achat. Dans l'application de cette garantie, elle s'engage, à son choix, à réparer ou à remplacer le matériel défectueux dès son retour à un dépôt de réparation. Cette garantie ne s'applique qu'aux pièces défectueuses et à la main-d'œuvre, et non aux dommages causés lors de l'expédition ou de la manipulation ou aux dommages dus aux causes indépendantes de la volonté de la société Digital Security Controls.

(b) Séparation des Composants - Le SOFTWARE PRODUCT est licensé comme un produit unique. Ses parties composantes ne peuvent pas être séparées.

(c) Utilisation du Logiciel - Le PRODUIT LOGICIEL ne peut pas être installé, accès, affiché, exécuté, partagé ou utilisé simultanément sur des ordinateurs différents, notamment une station de travail, un terminal ou autre dispositif électronique numérique (« Dispositif »). Autrement dit, si vous avez plusieurs postes de travail, vous devrez acheter une licence pour chaque poste de travail ou le PRODUIT LOGICIEL sera utilisé.

(d) Copie de sauvegarde - Vous pouvez faire des copies de sauvegarde PRODUIT LOGICIEL, mais vous ne pouvez avoir qu'une seule copie installée par licence à tout moment. Vous pouvez utiliser une copie de sauvegarde. Hormis ce qui est expressément prévu dans ce CLU, vous n'avez pas le droit de faire des copies de PRODUIT LOGICIEL, les matériaux imprimés accompagnant le PRODUIT LOGICIEL.

2. DESCRIPTIONS D'AUTRES DROITS ET LIMITES

(a) Limites relatives à la rétro-ingénierie, à la décompilation et au désassemblage — Vous n'avez pas le droit de déssosser, décompiler ou désassembler le PRODUIT LOGICIEL, sauf et seulement dans la mesure dans laquelle telle activité est explicitement permise par la loi en vigueur, sans égard à ces limites. Vous n'avez pas le droit de faire de changements ou des modifications, quels qu'ils soient, sans la permission écrite d'un dirigeant de DSC. Vous n'avez pas le droit de retirer les notices, les marques ou les étiquettes privatives du Produit Logiciel. Vous devez instituer des mesures raisonnables pour assurer la conformité aux modalités de ce CLU.

(b) Séparation des Composants - Le PRODUIT LOGICIEL est fourni sous licence en tant que produit unique. Ses parties composantes ne peuvent pas être séparées pour être utilisées sur plus d'un MATÉRIEL.

(c) PRODUIT INTÉGRÉ unique - Si vous avez acquis ce LOGICIEL avec du MATÉRIEL, le PRODUIT LOGICIEL est autorisé à être utilisé avec le MATÉRIEL en tant que produit intégré unique. Dans ce cas, le PRODUIT LOGICIEL ne peut être utilisé qu'avec le MATÉRIEL conformément à ce CLU.

(d) Location - Vous n'avez pas le droit de louer, de mettre en bail ou de prêter le PRODUIT LOGICIEL. Vous n'avez pas le droit de le mettre à la disposition d'autres personnes ou de l'afficher sur un serveur ou un site Web.

(e) Transfert du Produit Logiciel - Vous pouvez transférer tous vos droits de ce CLU uniquement dans le cadre de la vente ou du transfert permanent du MATÉRIEL, à condition que Vous ne conservez aucune copie, que Vous transférez tout le PRODUIT
