

## **UPHELD BY THE POWER OF SPEED, ALEXOR SECURES OUR WORLD.**

### **The Great Protector has been Unleashed at ISC WEST!**

***Check out the ALEXOR Custom Painted Bike Designed by ORANGE COUNTY CHOPPERS  
& Meet Paul Teutul Sr at the DSC Booth***

**Las Vegas, Nevada, Wednesday, April 1, 2008** – DSC is about to get your motor runnin' with an unbeatable suite of products unveiled for the first time at ISC WEST 2009. Feel the Power of Speed with ALEXOR and DSC's new 2-Way Wireless Security Suite. Meet Orange County Choppers (OCC) founder and showman Paul Teutul Sr! Check out the ALEXOR Custom Painted Bike designed by OCC. Try your skills at DSC's Power of Speed game and win a chance to install ALEXOR at OCC Headquarters in New Jersey!

#### **Upheld by the POWER OF SPEED, ALEXOR Secures our World**

ALEXOR is the great protector, the center component, of DSC's new 2-Way Wireless Security Suite. As a wireless control panel, ALEXOR is the "virtual" brain that communicates wirelessly to DSC wireless peripherals – both 2-Way and all other DSC 433MHz wireless devices. The ALEXOR name was inspired by great leaders, protectors and defenders in History – such as Alexander the Great. The root of the name means "man's defender, warrior". ALEXander and protector combined = ALEXOR, the "Protector/Defender of Man".

#### **The Modern Day Chariot. The ALEXOR Custom Painted Bike Designed by OCC**

In Alexander's time, one of the fastest modes of transport was the chariot, drawn by a team of powerful yet fleet-footed, horses. Today, one of the fastest, most powerful modes of transport is the modern day chariot, the "chopper". And no one builds a chopper like Orange County Choppers. One of the world's premier builders of custom motorcycles, OCC has designed a spectacular custom painted "Zero Gravity" ALEXOR bike, being unveiled for the first time in DSC's booth at ISC WEST. It takes a special combination of engineering, talent and creativity to build such a mighty beast – the same winning combination DSC's product development team used to create ALEXOR and DSC'S new 2-way Wireless Security Suite.

#### **Paul Teutul Sr. at the DSC Booth, April 1, 2 – 4 pm!**

Paul Teutul, Sr., metalworker by trade and founder of Orange County Choppers, Inc., first began his business of building custom choppers out of the basement of his home in Montgomery, NY in 1999. Today OCC builds and sells custom motorcycles from its 32,000 sq. ft global headquarters in Newburgh, NY. Paul Sr. will join the DSC team at the DSC booth to sign autographs on the opening day of the show, April 1<sup>st</sup> from 2 to 4pm.

#### **Test Your Skills with the Power of Speed Game**

Challenge yourself at DSC's "Power of Speed" game. It's a race against the clock (and others in your heat) to install the ALEXOR wireless panel. You could win an ALEXOR custom leather jacket or the grand prize – an opportunity to install ALEXOR and DSC's 2-way Wireless Security Suite at the OCC headquarters!

#### **Head out on the highway for the Product Showcase at the DSC Booth #22001**

The following new products and solutions being launched at the show include:
